CONTRACTOR'S ARRA COMPLIANCE CERTIFICATION

This project, the Carson City Public Works Solar Photovoltaic System, is funded in part or whole by the American Reinvestment and Recovery Act of 2009 (ARRA), also known as Federal Stimulus Money. The Contractor and all named Subcontractors shall certify in writing their understanding of and compliance with the ARRA requirements. The General Contractor shall submit a signed copy of this compliance statement with the Bid, per Specification Sections 00200. The General Contractor shall submit all named Subcontractors' signed compliance forms to the Owner within 10 business days after bid opening.

Failure to provide the General Contractor's signed certification with the Bid and the Subcontractors' signed certifications within ten (10) business days following Bid Opening shall render the Bid non-responsive and shall be the basis for rejection of the Bid.

By signing this document, the Contractor certifies they are fully compliant with ARRA Requirements, as summarized below:

- B. **Buy American:** Section 1605 of the ARRA requires that all Iron, Steel, and Manufactured Goods used in the project shall be produced in the United States.
 - 1. Steel is further defined as:
 - a. An alloy that includes at least 50 percent iron, between .02 and 2 percent carbon, and may include other elements.
 - b. Production in the United States of the iron or steel used in the project requires that all manufacturing processes must take place in the United States, except metallurgical processes involving refinement of steel additives.
 - c. These requirements do not apply to iron or steel used as components or subcomponents of manufactured goods used in the project.
 - 2. Manufactured goods are further defined as goods brought to the construction site for incorporation into the building or work that have been:
 - a. Processed into a specific form and shape; or
 - b. Combined with other raw material to create a material that has different properties than the properties of the individual raw materials.
 - c. There is no requirement with regard to the origin of components or subcomponents in manufactured goods, as long as the manufacture of the goods occurs in the United States.
- C. Contractor acknowledges that all submittals shall include material manufacturers' certification of ARRA compliance forms. Note that un-certified manufacturers shall be a basis for rejection of product, unless a waiver has been granted. Contractor shall replace all rejected items (due to noncompliance with ARRA guidelines) with ARRA compliant manufacturers, at no cost to the owner.
- D. **Waste, Fraud, and Abuse:** Waste, Fraud or Abuse of public funds will not be tolerated. Contractor understands that Project accounting must be strict, accurate, and timely.
