Foundation for Carson City Parks and Recreation donates \$6,210 for the Rifle and Pistol Range Vault Toilet Project

The Foundation for Carson City Parks and Recreation is financially partnering with the Carson City Parks, Recreation, and Open Space Department to install a vault toilet at the Carson City Rifle and Pistol Range. The Foundation recently donated \$6,210 towards this needed project which will be used as a cash match for a Nevada Department of Wildlife Hunter Education/Shooting Range Program Grant. “We are pleased to see these funds that are raised by civic minded citizens being put to good use within our community,” said David Bugli, President of the Foundation. Donated funds such as these are raised through various fundraising activities by organizations affiliated within the Foundation.

The vault toilet will be installed this spring and is necessary due to the increased recreational shooting demands at the range. This toilet includes separate facilities for men and women, is a pre-cast concrete building, and will be ADA accessible. The project also includes various site improvements to provide recreational shooters with disabilities access to the toilet from the rifle and pistol shooting bays.

The Foundation is an umbrella organization created for charitable and educational purposes related to Carson City Parks and Recreation. It assists the Department with a variety of projects for improvements to the City's parks. Information about the Foundation can be found at CarsonCityParks.org.

If you have any questions for department officials regarding the vault toilet project, please call Vern L. Krahn, Senior Park Planner at (775) 283-7343 or send Mr. Krahn an email at VKrahn@carson.org. Also, any persons seeing inappropriate activities or illegal dumping at the Carson City Rifle and Pistol Range are encouraged to report them to the Carson City Parks, Recreation, and Open Space Department by calling (775) 887-2262.
