Phone: 887-2262 Extension 7340
Fax: 887-2145

LONE MOUNTAIN CEMETERY EXPERIENCING IRRIGATION ISSUES

The Carson City Parks and Recreation Department is informing our citizens that we are experiencing some irrigation system issues related to a recent conversion of the irrigation of the facility from reclaimed water to potable water. The low pressure situation has caused some of the turf to be stressed, although it is still being watered to minimize the impact. The turf is not permanently damaged or dying, and will recover once the problems are resolved. We are working with the Carson City Public Works Department to make the necessary improvements in as timely a manner as possible.

For further information, please contact Scott Fahrenbruch, Deputy Director of the Carson City Parks and Recreation Department, at (775) 887-2262, extension 7340, or by e-mail at
