To whom it may concern:

Re: Special Use Permit / File# SUP-16-018

Nobody wants a lighted message board glaring down the street or in the neighborhood, nobody wants to pay more taxes for the building, use or maintenance of such items.

I once went to a city board meeting to express on property issues, the board members acted concerned, but one spoke out that he basically didn't care what I had to say, it appeared that the bottom line was to basically collect taxpayer money. I am Thankful that other community members obviously feel the same way, as that guy was voted out of his seat on the board.

Thanks for your time and consideration.

Carson City Property Owner.
