- Please respect private property do not trespass!

WARNING: Many man-made hazards below Santa Maria Ranch DO NOT go past this point

RIVER CLASSIFICATION

- CLASS I** Riffles - small waves no obstacles.
- CLASS II** Relatively larger waves but no major obstructions in the channel.
- CLASS III** Longer rapids than Class II, bigger waves, holes, and currents. Route finding is necessary and may require scouting.
- Dams:** All dams on this may be passable at some water levels by advanced boaters, but should be scouted first.

Eagle Valley Class I Float 3.3 Miles
 From Carson River Park to Morgan Mill Road River Acces.
 Canoes and kayaks; small rafts ok at higher flows.
 The minimum flow needed to comfortably boat this section is 400cfs.

Carson River Canyon Class II/III Whitewater 9.3 Miles
 From Morgan Mill Road River Acces to Santa Maria Ranch.
 One dam hazard, numerous Class II/III rapids.
 Appropriate for intermediate to advanced skills; kayaks and rafts.
 The minimum flow needed to comfortably boat this section is 1000cfs.

Check the flow information here:
