**CARSON CITY, NEVADA
A CONSOLIDATED MUNICIPALITY
INVESTMENT AND PORTFOLIO POLICIES**

I. INTRODUCTION

- A. The investment of Carson City, a consolidated municipality (hereinafter referred to as the "City"), funds is a function performed by the City Treasurer following policy acknowledgment by the City Board of Supervisors. The investment program's operation is the responsibility of the City Treasurer.
- B. It is the intent of this policy to establish guidelines for the prudent investment of these City funds.

II. SCOPE

- A. This policy applies to activities of the City with regards to the investing of the financial assets of all funds, including the following:
 - General Fund
 - Special Revenue Funds
 - Capital Project Funds
 - Enterprise Funds
 - Debt Service Funds
 - Internal Service Funds
 - Trust and Agency Funds
- 1. Should bond covenants be more restrictive than this policy, funds will be invested in full compliance with those restrictions.

III. OBJECTIVES

- A. **Safety:** Safety of principal is the foremost objective of the City's investment program. Investments by the City Treasurer shall be undertaken in a manner that seeks to ensure the preservation of principal in the overall portfolio.
- B. **Liquidity:** The City's investment portfolio will remain sufficiently liquid to enable the City to meet all operating requirements which might be reasonably anticipated.
- C. **Return on Investment:** The City's portfolio shall be invested with the objective of obtaining an appropriate market rate of return in relation to the prevailing budgetary and economic environments. This would take into account the City's investment risk constraints and the cash flow characteristics of the portfolio.

IV. PERFORMANCE EVALUATION

- A. The City's investment strategy is defined as minimally active. Although the City may be a daily short term investor, the City has the ability to take advantage of longer term market opportunities as they occur by analyzing projected cash flow. Given this strategy, the basis used by the City Treasurer to determine whether competitive market yields are being achieved shall be the ninety day United States Treasury bill.

V. AUTHORIZATION

- A. Funds of the City will be invested in compliance with the provisions of Nevada Revised Statutes, Chapter 355.167 through 355.200, and other applicable statutes including Chapter 350.659. Investments will be in accordance with these policies and written administrative procedures. Investment of any tax exempt borrowing proceeds and of any Debt Service Fund will comply with the 1986 Tax Reform Bill provisions referring to the Internal Revenue Code Section 148 which deals with arbitrage.

VI. PRUDENCE

- A. The standard of prudence to be used by authorized treasury personnel shall be the following "prudent person" standard, as hereafter quoted, and shall be applied while conducting all investment transactions:

"Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

- A. Liquidity: To the extent possible, investment maturities must match the anticipated cash flow requirements. Portfolio management procedures will provide for the assessment of net cash flow positions for at least a three month period.
- B. Market Risk: Market risk relates to the continuous price fluctuations of marketable securities that may result in a loss to the City if cash flow requirements force a premature sale.
 - 1. Portfolio maturities must be structured to avoid the forced sale of securities in any but the most severe circumstances. To this end, portfolio management procedures will provide for the projection of a "Minimum Liquidity Requirement" for the City's operating fund.
- C. Minimum Liquidity Requirement: This is defined as the total cash flow needed to pay City obligations for a period of four weeks. All securities to be included in the "Minimum Liquidity Requirement" must mature within 28 days.
- D. Intermediate Market Investment: That portion of City funds remaining after deletion of the "Minimum Liquidity Requirement" may be invested in the intermediate market, defined herein as instruments maturing between zero and ten years.

XII. DIVERSIFICATION

- A. Assets held in the investment portfolio shall be diversified to eliminate the risk of loss resulting from over-concentration of assets in a specific class of securities. The following diversification limitations shall be imposed on the portfolio:
 - 1. With the exception of United States Treasury and government agency securities, no more than 20% of the total book value of the portfolio will be invested in a single security type.

All approved firms are expected to be familiar with the precautions appropriate to public sector investments while also being expected to familiarize themselves with the City's investment objectives, policies, and constraints.
 - 2. The City Treasurer will require that a current financial statement be on file for each broker/dealer and financial institution through which the City invests.
 - 3. The City Treasurer shall encourage all financial institutions doing business within the State of Nevada, including those owned by women, minorities, and/or the

The City must have approved of such contract and such contract must be presented to the State Board of Finance for its approval. The City Treasurer shall submit to the City Manager a monthly report that sets forth the securities that have been lent pursuant to this section and any other information relating thereto, including, without limitation, the terms of each agreement for the lending of those securities.
