Agenda Report**

Date Submitted: May 25, 2010

Agenda Date Requested: June 3, 2010

Time Requested: Consent

To: Mayor and Supervisors

From: Purchasing and Contracts

Subject Title: Action to determine that Contract No. 0910-216 is a contract for hardware and associated peripheral equipment and devices for computers and/or software for computers and therefore not suitable for public bidding pursuant to NRS 332.115 and to approve Contract No. 0910-216 a request for the purchase of Servers from Dell for a not to exceed cost of \$97,974.36 to be funded from the Admin Svcs Automation Property/Maint Fund as provided in FY 2009/2010. (P.O. # 2009-309) (*Sandy Scott-Fisher*)

Staff Summary: This acquisition provides the City with new server and backup infrastructure. The servers are high-performance devices that combine to form a reliable platform for numerous software applications in use by users throughout the City. The backup infrastructure will be comprised of thirty (30) terabytes of disk space and a high speed, high compression tape drive. This arrangement facilitates the industry standard disk-to-disk-to-tape backup methodology. All new devices and software components have life cycles of at least five years, with five-year service agreements being implemented as part of this initial acquisition. Older equipment and software licenses that are being replaced (and which are reaching the end of their vendor-supported life cycles) will be redeployed as hot-standby and test-bed equipment.

This acquisition will consist of the initial purchase of \$49,968.00, and annual maintenance payments of \$9,994.00 per year for five years.
