STAFF REPORT FOR PLANNING COMMISSION MEETING OF NOVEMBER 17, 2010

FILE: ZMA-10-087 AGENDA ITEM: H-6(B)

STAFF AUTHOR: Lee Plemel, AICP, Planning Director

REQUEST: A Zoning Map Amendment to change the zoning designations of property located in and around the vicinity of the Carson City Landfill, Flint Drive area, changing APN 8-011-19 from General Industrial to General Commercial and Public Regional, changing APN 8-521-20 from Conservation Reserve to Public Regional and General Commercial, and changing APN's 8-531-03 and 10-011-01 and -29 from Conservation Reserve to Public Regional.

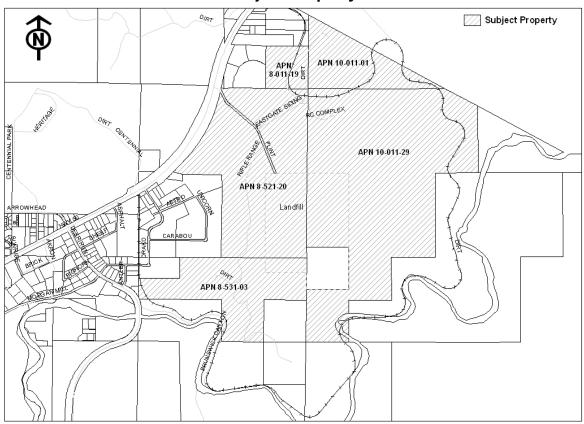

APPLICANT: Carson City Planning Division

OWNER: Bureau of Land Management (BLM) and Carson City

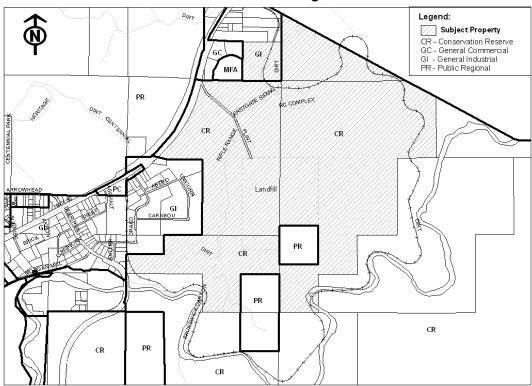

LOCATION: Highway 50 East/Flint Drive/Landfill vicinity (see map below)

RECOMMENDED MOTION: "I move to recommend to the Board of Supervisors approval of ZMA-10-087, a Zoning Map Amendment to change the zoning designations of public property located in the vicinity of Flint Drive and the Carson City landfill as published on the agenda and presented by staff, based on the findings contained in the staff report."

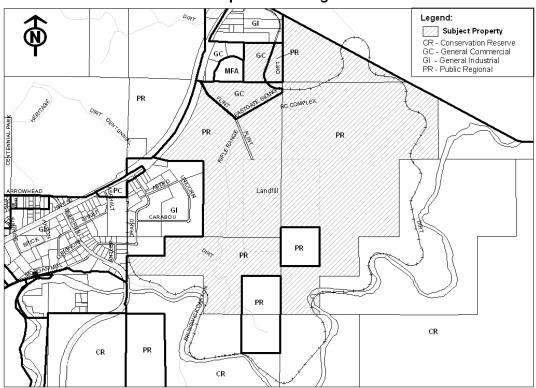

Subject Property

Current Zoning

Proposed Zoning

LEGAL REQUIREMENTS: CCMC 18.02.050 (Review); 18.02.070 (Master Plan).

DISCUSSION:

The subject properties are currently owned by the Bureau of Land Management (BLM), with the exception of the Landfill area that is under patented ownership by Carson City. The V&T Railroad right-of-way also goes through portions of the property, as indicated on the maps on the previous page. The current and proposed Zoning Maps are also attached to this staff report with the draft ordinance.

Most of the subject property is identified for transfer from BLM to Carson City in the Omnibus Public Lands Management Act of 2009 ("Lands Bill") adopted by Congress. The properties identified in the Lands Bill for transfer to Carson City are designated "To Carson City for Parks and Public Purposes." The Lands Bill further states that these lands may be used for "public purposes" consistent with the federal Recreation and Public Purposes Act. The Recreation and Public Purpose Act allows a wide range of public uses and facilities, both for public and non-profit organizations. These properties are currently zoned Conservation Reserve and are proposed to be designated Public Regional to be consistent with the Lands Bill as well as existing and proposed uses.

The purpose of Conservation Reserve zoning district is "to identify the outlying lands that may be developed in the future when water supply, roads, schools, sewer and other public facilities and services are provided for potential development and lands with environmental constraints" (CCMC 18.04.165). This is contrary the existing uses on the property (e.g. the landfill) and to the Recreation and Public Purpose designation that the BLM has had on the property since the BLM Carson City Urban Interface Plan Amendment of 1996. These same properties were designated as Public Lands Potentially Available for Disposal prior to the 1996 plan.

The proposed zoning for these same properties is Public Regional. The purpose of the PR zoning district is for federal, state and city facilities and uses whose main purpose is to sustain a wide range of regional needs. The proposed PR zoning is more appropriate for these properties that are already being used for public uses. The PR district requires a Special Use Permit for all uses. (Refer to the attached Carson City Municipal Code Section 18.04.165 (CR) and 18.04.185 (PR) for a complete list of permitted uses.)

The smaller remainder of the subject property, the area between Flint Drive, Eastgate Siding Road and the V&T Railroad Tracks, is identified in the Lands Bill for sale by BLM for economic development. The proposed zoning of General Commercial is intended to be consistent with the proposed sale of the property for commercial development.

This Zoning Map Amendment is being processed concurrently with a proposed Master Plan Amendment. Further detailed discussion regarding the Master Plan Amendment is included in the staff report for MPA-10-086.

PUBLIC COMMENTS: Public notices were mailed to 30 adjacent property owners within 1,100 feet of the subject parcel in accordance with the provisions of NRS and CCMC 18.02.045. As of November 9, 2010, no written comments have been received either in support or opposition of this application. Any comments that are received after this report is completed will be submitted prior to or at the Planning Commission meeting, depending on their submittal date to the Planning Division.

OTHER CITY DEPARTMENT OR OUTSIDE AGENCY COMMENTS:

Engineering Division: No concerns with the request.

FINDINGS: Staff recommends the following findings for approval of the Zoning Map Amendment pursuant to the Carson City Municipal Code Section 18.02.075, Zoning Map Amendments.

1. The proposed amendment is in substantial compliance with the goals, policies and action programs of the Master Plan.

Rationale: The proposed amendment will be in substantial compliance with the following goals and policies of the Master Plan:

Goal 1.3 – Promote the preservation of State and Federal lands as a community amenity.

Policy 1.3a – State and Federal Land Disposal – Continue to coordinate with the BLM to ensure that its Urban Interface Plan is consistent with the Land Use Plan.

Policy 1.3b – State and Federal Land Transfers – Monitor lands slated for potential disposal and identify opportunities for the transfer of such lands to City ownership, where lands are needed for public facilities, parks, trail access or similar functions, through the Federal Lands Bill and other programs, particularly within the urbanized area of the City.

This application is submitted by the Carson City Planning Division through the cooperation and coordination with BLM to establish appropriate zoning designations consistent with the existing Urban Interface Plan and the Federal Lands Bill.

Policy 1.4c – Protection of Existing Site Features – Ensure that development at the Urban Interface is designed to minimize disturbances to existing stands of mature trees, distinctive topographic features (hillsides/ridgelines), and other character-defining features, particularly those that are visible from other locations in the community.

The proposed amendment will provide for public review of all uses to be established on the properties, allowing review of existing site features.

2. The proposed amendment will provide for land uses compatible with existing adjacent land uses and will not have detrimental impacts to other properties in the vicinity.

Rationale: The proposed Public Regional designation is consistent with the public uses that are already occurring on the property and will provide for future public uses compatible with the adjacent commercial and industrial uses, as well as the V&T Railroad. The proposed General Commercial zoning is consistent and compatible with adjacent commercial uses. The PR zoning will require approval of a Special Use Permit for any new uses, which will ensure continued compatibility of the public uses with adjacent uses.

3. The proposed amendment will not negatively impact existing or planned public services or facilities and will not adversely impact the public health, safety and welfare.

Rationale: The proposed amendment provides area for future economic development and area for various public service facilities to accommodate projected growth for Carson City. The area is already identified and used for public facilities, and the proposed amendment will not adversely impact the public health, safety and welfare.

Respectfully submitted, DEVELOPMENT SERVICES, PLANNING DIVISION

Planning Director
