DISCUSSION:

This request is to allow the abandonment of a right-of-way area adjacent to Karin Drive and northwest of Rand Avenue, which is approximately 6,783 square foot, more or less, adjacent to properties located at 1712 Karin Drive on the west, 1946 Hamilton Avenue on the north and an unaddressed parcel on the east which is now owned by the applicants, Robert T Morris and Kay Ellen Armstrong. It is noted this last parcel is unaddressed and was previously owned by Carson City (Carson City Parks Department). It was sold to the applicants, Robert Morris and Kay Armstrong, after approval by the Board of Supervisors on December 16, 2010. The parcels adjacent to the right-of-way area are APN 002-371-01 to the west, 002-374-01 to the east and 002-523-09 to the north.

Chain of Title is as follows: This right-of-way area was originally dedicated to Carson City with the development of Sunland Vista subdivision Unit 12-C recorded January 31, 1973 on recorded map #396, file #16186. It appears the intention was for a roadway to continue to the north and a linear park to be created to the east of the roadway in conjunction with an access between Karin Drive and Hamilton Avenue. However, the property to the north was subsequently developed by parcel maps that cut off any access between Karin Drive and Hamilton Avenue. This left a remnant parcel of City-owned property and a right-of-way area which were the responsibility of the City, but which were not maintained. As previously mentioned, the City has sold the City-owned remnant parcel to the applicants, leaving only the right-of-way area which does not connect to any other roadway on the north. It is also noted the property to the southwest of this area is a City-owned vacant lot, which was noted on the original subdivision map as a fault scarp, with the fault extending to the location under discussion.

The property line to the northeast of the right-of-way to be abandoned (which is the southeast lot line of 1946 Hamilton Avenue and the northwest lot line of the unaddressed property to the east of the right-of-way) must be properly deleted before the abandonment can be recorded. In addition, a condition from Rory Hogen of the Engineering Division is that corrections must be made on the legal descriptions prior to the abandonment being recorded.

Planning Division staff conducted a site visit on July 8, 2011 and found the subject area to be a vacant parcel with a slope downward from west to southeast. There is presently no improvement or development in the area proposed to be abandoned. The applicants intend to create one large parcel to be used as a back yard and swimming pool.

The applicants have negotiated with Kurt and Nancy Grange, property owners to the southwest of the Morris/Armstrong house, to secure the entire right-of-way area upon approval of the abandonment process, rather than splitting the resulting area between the adjoining parcel owners.

The Grange's would receive approximately 62 square feet of the right-of-way at the corner of Karin Drive and the unnamed roadway to create a straight line at their southeast property line. Morris/Armstrong would receive approximately 6,721 square feet upon approval. The total area to be abandoned would be approximately 6,783 square feet. The proposal is to add this right-of-way area to the area purchased from Carson City, delete the property line at the southern portion of their parcel with the house on it, thereby creating one large parcel which has frontages on both Hamilton Ave and Karin Drive.

Nevada Bell Telephone Company dba AT&T, NV Energy, and Southwest Gas have indicated they do not have utilities in the public roadway easement proposed for abandonment and do not want any reservation to be continued. Charter Communication has indicated they do have a utility interest in the right-of-way being abandoned and do desire to continue the public utility easement. In addition, per Rory Hogen of the Carson City Engineering Division, Carson City has an existing storm drain pipe which runs north-south through the property. An easement must be created showing a 10 foot width on each side of the pipe, as well as a 10 foot wide public utility easement along the Karin Drive right-of-way. A condition of approval notes that these easements must be included in the documentation to be recorded. See the plan provided by Charles Ken Iwamura of Tri State Surveying, LTD for detailed maps showing the area to be abandoned.

Pursuant to NRS 278.480 Vacation or Abandonment of a Street or Easement: If upon public hearing by the Board of Supervisors, the Board is satisfied that the public will not be materially injured by the proposed vacation, the Board shall order the street or easement vacated.

With the recommended conditions of approval and based on the findings of fact that the public will not be materially injured by the proposed vacation, it is recommended that the Planning Commission make a recommendation to the Board of Supervisors for approval of AB-11-043, subject to the recommended conditions of approval.

PUBLIC COMMENTS: A public notice was sent by certified mail to the three adjacent property owners per NRS. At the writing of this report, there have been no comments in opposition or support of the proposed abandonment.

CITY DEPARTMENT/OUTSIDE AGENCY COMMENTS: The following comments were received from City departments. Recommendations have been incorporated into the recommended conditions of approval, where applicable.

Engineering Division:

1. Owner of the abandoned property must provide a permanent 20 foot wide access, maintenance and construction easement to Carson City for an existing storm drain pipe that runs north-south through the property. The easement must be 10 wide on each side of the pipe.
2. Owner of the abandoned property must provide a 10 foot wide public utility easement along the Karin Drive right of way.
3. Owner must provide a utility easement for Charter Cable Company for the existing cable improvements on the property.
4. The property line on the north side of the street right-of-way to be abandoned (the south lot line of 1946 Hamilton Avenue) must be properly deleted before the abandonment can be recorded.
5. There are minor corrections to be made on the legal descriptions before abandonment approval (recording).

Building Division:

The Building Division has no objections to the abandonment of the road.

Fire Department:

Health Department:

The Health and Human Services Department has no comments on this project.

Environmental Control Authority:

No comments or requirements.

Parks and Recreation Department:

RIGHT-OF-WAY ABANDONMENT FINDINGS: In accordance with the policy for right-of-way abandonments, adopted by the Board of Supervisors on October 1, 1998, the staff recommendation is based upon the following findings, which are substantiated in the public record.

1. Will the public be materially injured or not?

Per the information provided by the applicant, the adjacent property owners will not be damaged by this abandonment application, nor will the public be materially injured by the abandonment.

Per the information provided by Rory Hogen of the Engineering Division and the Planning Division, the public will not be materially injured by the proposed abandonment of the right of way.

There will be no landlocked parcels created as a result of the proposed abandonment.

2. Whether the street was dedicated or not?

The right-of-way was dedicated to Carson City on the plat for the Sunland Vista Subdivision Unit 12-C, Shown on recorded map #396, File #16186, recorded 1/31/73.

3. What should the reasonable consideration be if the street was not dedicated?

It has been determined by the Engineering Division that there are no indications that the City of Carson City ever paid for the right-of-way in question, as it was dedicated to the City as a portion of the Sunland Vista Subdivision. It is recommended that there be no charge in addition to the fee to apply and postage required to notify the adjacent property owners. It is noted the property would not be functional as a street, as the property to the north was developed as a house, effectively blocking the area for use as a street. It was noted when the parcel adjacent to the right-of-way on the east was sold to the applicants, that the parcel was too small to establish an economically viable use by anyone other than a person who owns real property adjacent to it. This parcel is also less than the minimum width of 60 feet usually required for a parcel in the Single Family 6000 zoning district. This parcel is only 50 feet wide.

4. If abandonment has a public benefit, how much of the public benefit should be offset against the determination of reasonable consideration?

No charge for this abandonment is recommended. Therefore, this item does not apply to this abandonment.

5. Applicability of the parking value analysis applied to this request.

There will be no elimination of on-street parking in the area of the proposed abandonment. This right-of-way area has not been developed. This item is not applicable to the proposed abandonment and will not result in elimination of on-street parking.

6. Should utility easements be reserved, continued or vacated?

The utility companies, AT&T Nevada, NV Energy and Southwest Gas have indicated they do not have utilities in the public roadway proposed for abandonment and do not want a easement reservation. Charter Communication does indicate they have a utility in the right-of-way being

abandoned and desire it to continue. Also, Carson City has a storm drain pipe that runs north-south through the property and is requiring a 20 foot wide easement, with 10 feet on each side of the pipe. Also, a 10 foot wide public utility easement is required along the Karin Drive right-of-way. A condition of approval describes the requirement that the owner must provide a Charter Communication easement for existing cable improvements, public utility easement, and storm drain pipe easement on the property.

7. Imposition of any conditions of approval by the Board of Supervisors or recommended by the Planning Commission or staff.

Staff has included within this staff report conditions of approval, which relate to the responsibilities of the applicant in the event this application is approved.

Respectfully submitted,

PUBLIC WORKS DEPARTMENT, PLANNING DIVISION

Re: Robert Morris and Kay Ellen Armstrong application for abandonment
of public right-of-way.

To the Carson City Planning Commission and Board of Supervisors:

This is an application for the abandonment of a right-of-way dedicated in connection with the Sunland Vista Subdivision Unit 12-C recorded January 31, 1973, No. 16186. The property is currently vacant and is not used for access to any property. The configuration shown on the subdivision map has an unnamed roadway easement and an adjacent park strip that would have accessed property to the North but the subsequent platting of Hamilton Avenue and the intervening lot extinguished any use for the proposed right-of-way.

The right-of-way lies between the residence of Kurt and Nancy Grange, at 1712 Karin Drive (APN 02371-01) on the West and a 3900 square foot former remnant of Carson City Park property (APN 02-374-01) that we now own and abuts the back of our property at 1946 Hamilton Avenue (APN 02-523-09).

We have been working to acquire this property for use as a back yard and plan on building a swimming pool. After discussions with staff, a two-step process was proposed and accepted. The first step was the purchase of the park strip and the second was the abandonment of the right-of-way. The lots will finally be consolidated into a single lot by a boundary line adjustment. We have purchased the Park strip from the City after the Board's approval of a resolution to sell the property. We are now interested in acquiring the remnant of the public right-of-way by asking for its abandonment. As the owner of the adjacent parcel we are asking for the Eastern half of the right-of-way. We have an agreement with the Granges, owner of the property adjacent to the Western half of the right-of-way, to purchase their right to the Western half of the right-of-way. Our request is that the order of abandonment transfer the entire right-of-way based on the agreement.
