I am a current member of the Carson City Board of Library Trustees and a former chair of the Redevelopment Authority so I am very supportive of this proposal to build a new library and public plaza in our downtown. I have been involved in these discussions and proposals for over four years, and I would appreciate the opportunity to present the positive aspects of this project to our voters.

This small increase in our sales tax will benefit small business, education, economic development, and local unemployment.

I would appreciate the chance to work with fellow supporters to craft ballot language that will explain and champion the issues of the new downtown library and public plaza.

Carson City Ballot Question Committee
Quarter Cent Tax for the Knowledge and Discovery Center

My name is Catherine Cunningham and I have lived in Carson City for seventeen years. I am a board member of the Carson City Library Foundation. While I am currently a stay-at-home mom, my background is in public policy and non-profit fundraising. I worked for Governor Bob Miller as an education policy advisor from 1995-1998. Prior to this position, I coordinated public relations and fund development for a residential treatment facility in Altadena, California for at-risk boys. In addition, I have spent the past fifteen years volunteering for various local organizations including the Carson-Tahoe Cancer Foundation and Fritsch Elementary School.

I am interested in serving on the Ballot Question Committee because I sincerely believe the Knowledge and Discovery Center will be a catalyst for diversifying our local economy in Carson City and it will provide more equalized access to state-of-the-art technology, educational resources, and career development for learners of all ages and backgrounds. The Knowledge and Discovery Center would be so much more than books on shelves. It would be the central hub, working along with our schools, government and business community, to instill in our local workforce the complex, higher level skills demanded by the global marketplace of the 21st Century. The quarter cent tax ballot question represents an investment in our most precious commodity, our human capital. We see far too many of our citizens, especially young adults, leave our area to pursue employment in other states because they cannot find high earning jobs locally. The Knowledge and Discovery Center is an essential component in creating and attracting more high paying jobs to Carson City to help retain more of our bright, industrious young adults, so they can invest their time and talents in our local community.

I am confident my professional and volunteer experience coupled with my belief in the merits and necessity for the Knowledge and Discovery Center enable me to be a valuable member of the Ballot Question Committee.

My experience in education (30+ years teaching English and reading, managing a middle school library for over ten years); my approximately three-year tenure writing a column every other week for the Nevada Appeal (Library News and Notes); and my five years as a member of the Library Board of Trustees (member, vice-chairperson, and recently reappointed chairperson) make me uniquely familiar with the workings of a library, particularly this Project. I have lived in Carson City for thirty-seven years, own property and an office building, and I strongly believe the City Center Project is *crucial* to the revitalization of the downtown area and community. The library is the best fit as the core piece of the Project, it has private support, and it has been thoroughly researched. I feel I have a good working relationship with those involved with the library and with the community leaders. Being a long-time resident, I want the community to thrive and prosper. The City Center Project is a proactive way to make that happen. The library is already outstanding, being nationally recognized on numerous levels. Imagine how much better we can be, given the space and opportunity.

Sandy M. Foley

As a member of the Citizen Petition Initiative Group I have an interest in ensuring the Citizens Ballot measure is not compromised by the Question put forward by the Board of Supervisors.

My many years of writing formal reports to local governing authorities and as a guest columnist for a local paper have created the ability to write clear and concise messages detailing facts.

I have previously served on a similar Committee related to a State-wide initiative as evidenced by documents previously provided to elections office
