II. PROJECT DESCRIPTION

The Five-year Consolidated Plan identifies priority community development needs for Carson City (see Appendix II). The need for your proposed project will be determined by identifying how the project impacts upon the adopted Consolidated Plan Priority Needs. Greater consideration will be given to projects/programs that provide a clear description of the project/program with supporting data and methodology of how the project will meet these needs.

| | | | | |
| | | | | |
| | Describe how your organization plans to reduce the need for grant funding in the future We continue to endeavor to increase revenue by means other than grants. We have | | | |
| | experienced a decrease in our major fund-raising program, which is our thrift store, due to the | | | |
| | influx of numerous similar stores in Carson City. We are researching expanding the business | | | |
| | of the store to include other types of retail sales than just used goods. | | | |
| | | | | |
| | Could your organization use less than the amount of funds requested for the proposed | | | |
| | project/program? Please explain. Not easily, as we need as much assistance as possible, but we would endeavor to continue | | | |
| | our programs and would continue to work to fill gaps, as we feel this is a very essential | | | |
| | service to our clients. We feel we have made our request at a moderate level, not asking | | | |
| | | | | |
| | for an increase over last year. | | | |
| | Are there other agencies or organizations that provide the same service as your | | | |
| | organization? If so, how do you coordinate your services with that organization? | | | |
| | Some for-profit agencies provide segments of services, but not the same type of service as | | | |
| | we provide. We do have a continuum of service. We belong to a Providers Group that meet | | | |
| | to coordinate services and identify how to fill gaps in service. | | | |

III. PROJECT MEASUREMENT

Carson City has implemented a <u>Performance and Outcome Measurement</u> System into the application and grant/project administration process. When completing this section, keep in mind that *outputs* are specific descriptions of what your project is intended to accomplish (such as serve a total of 20 clients) and *outcomes* are the benefits or changes that result from the program (such as how well the service met the client needs).

| 1. What are the projected <u>outputs</u> , or total number of people served, from this program/project? In our job development program we plan to serve 20-30 people, providing them with meaningful job tasks and developing employment skills. Our other programs will serve another 30-35 people. The | | | | | |
|--|--|--|--|--|---|
| | | | | | number of people served is dependent on the funding of the State to place people from their waiting |
| ists. We project we will work with 60 people. | | | | | |
| | | | | | |
| Of the total number of people in Question 1, how many of these are low-to-moderate income (LMI)? How many are Carson City residents? One hundred percent of the people we serve are low-to-moderate-income, with at least 90 percent low | | | | | |
| income. One person lives in Lyon County. All the rest are Carson City residents. | | | | | |
| 3. What is the projected <u>outcome</u> of this program/project? (How will the outputs benefit the total number of people in Question 1?) The outcome will include keeping people employed, helping them to become employed and making it possible for them lead more meaningful lives and be part of the community. | | | | | |
| 4. What procedures will be put into effect to create, compile and maintain data to track performance measurement for this program/project? OACC has procedures to track data on a daily basis. This includes production rates when applicable, promotions in employment, the decrease of assistance or increase in self-sufficiency. We set goals for each person and criteria for tracking these. | | | | | |
| | | | | | |

- 1. Please attach a final financial income and expense statement that specifically explains how grant funds were used, including a comparison between your budgeted and your actual incomes and expenses.
- 2. Evaluate your achievement of the measurable outcomes listed in your application:

Six additional people now handle 95 percent of their own living expenses. They primarily need assistance with handling finances. Others are showing improvement in handling daily problems. All those who wish are voting in City elections -58%. As in former years, the program has kept our people from becoming a burden and from becoming homeless. They participate in community functions and work with service clubs. They are proud to be a part of the community and be able to do everyday tasks for themselves.

3. Approximately how many people benefitted from your project? How many of those people were Carson City residents? What were some of the individual benefits?

Fifty-six people benefitted in some way from our programs. One individual benefit is the ability to earn additional money. Another is improving job skills and work habits in the goal to become more employable. Three of those employed in the community received promotions and/or pay raises. A second work group was able to go into the community on a part-time basis. One benefit that is difficult to measure is that they seem happier, probably due to taking part in the community and able to attend more community events.

4. What specific community benefit did your project provide Carson City?

Kept additional people from becoming homeless. Also, involvement in the community helps overall and keeps our people from causing problems because they are lonely and uninvolved.

5. Will this program/project be reoccurring? How do you anticipate funding the project in the future?

This program is on-going and will continue as long as OACC is able to finance it. We expect to continue as we have – by grants, donations, sub-contract work from local businesses and by increasing thrift store income by including other types of sale items.

6. Describe any challenges that impacted your program.

In a nutshell, money. The budget cuts of the State, the decrease in thrift store income, and the downsizing of businesses we contract with have all been challenges for us. It has been a struggle to obtain new contracts and maintain/increase the old. Through all this, we have been able to increase number of contracts by three.
