Health Officers Report
March 21, 2013

Addressing local public health issues begins with a strong governing body that knows the community's need and strategizes how to best meet those needs. The Strategic Plan that will be presented in its final form today represents the best efforts of the Health Department and Board of Health to anticipate and provide the health services that will strengthen our city. I'd like to thank former Supervisor Walt and Supervisor Abowd as well as the staff at CCHHS for the thoughtful consideration they have provided to develop this Plan. I think it will be valuable as we consider future directions for our health resources.

In light of this plan, some of the projects I have been working on recently include the Sexual Assault Response Team, moderating community forums on the Affordable Care Act and reviewing our jail healthcare facilities. Since we have a very full agenda today, I will defer reports on these projects until later in the year.
