

**Parks and Recreation Commission
Staff Report**

Meeting Date: February 21, 2012

Agenda Item Number: 4C

Applicant: Roger Moellendorf, Director

Request: For possible action to approve scheduling a parks and facilities tour this spring.

General Discussion: The Parks and Recreation Department staff has conducted tours of parks and recreation facilities in the past for the Commission. It has been a couple of years since a tour was conducted. There have been several new projects that have been completed that may be of interest to the Commission. Staff is willing to host a tour this spring that can highlight both new projects and older facilities that may help shed some understanding of issues the Department is currently addressing.

Staff is recommending that we spend 2-3 hours on a Saturday morning this spring for a tour. Staff will research possible dates and bring back a recommendation for the Commission's approval at the next Commission meeting.

Recommended Action: I move to approve scheduling a parks and facilities tour this spring and ask staff to bring forward a recommended date at the next Parks and Recreation Commission meeting.
