2. Statement reflecting reasons for your interest in serving Carson City Airport Authority:

As the former chair of the Truckee-Tahoe Airport District, I spent years on the Board of Directors guiding the airport through challenging policy decisions. It is my desire to see Carson City Airport be very successful, and I believe that there is the potential for tremendous upside at the airport with good policy and guidance from the Airport Authority. Personally, I would like to see Carson City Airport taken to the next level with increased business utilization.

3. Why are you willing to serve as a member of the Carson City Airport Authority?

My firm has an investment at Carson City Airport. I believe that my experience would lend itself favorably to the future success of the airport, and it is in my best interest to see the airport thrive. As a former board member at Truckee-Tahoe Airport, an FBO owner, and a former corporate executive, my background would be beneficial to the Airport Authority.

4. What do you envision as the future of the Carson City Airport? Carson City Airport has become an alternative to Reno. It is important to continue that trend to generate more business at the airport. Being the state capitol, it is important that the airport portrays the very best appearance as it is the first thing many see when arriving in Carson City. Continuing to build upon the infrastructure as a means to attract more users to the airport would be my personal vision.

5. Statement of why you feel you will be an effective participant: Our firm has owned a business at Carson City Airport for 6+ years, successfully. My understanding of the airport business is extensive, and I believe that there is great opportunity available to the airport with the proper vision and experience being brought to the discussion.

2. Statement reflecting reasons for your interest in serving Carson City Airport Authority:

As a board member and president of Carson Air Group I have an interest in seeing that the airport continues to improve and its occupants thrive.

3. Why are you willing to serve as a member of the Carson City Airport Authority?

When Harlow Norvell abdicated his position on the Airport Authority he left a void in professional pilot experience.

I would like to fill that void by contributing the knowledge and insights I have gained in my professional aviation career.

4. What do you envision as the future of the Carson City Airport?

The airport will continue to grow more appealing to corporate operators as the infrastructure continues to improve.

Tim Rowe, the Airport Manager, has been working to have an ILS system with lower landing minimums established for Runway 27. When he is successful with this project, the Carson City Airport will be much more appealing to companies with corporate aircraft for relocating and setting up operations in Carson City.

5. Statement of why you feel you will be an effective participant: I've owned a hangar on the airport for 12 years and have been involved with all the FBO's during that time. I'm familiar with their businesses and so far I have

managed not to alienate any of them. I would like to maintain and encourage more goodwill between the Airport Authority and these disparate businessmen, as well as the important goodwill with the residents of Carson City.

6. Do you anticipate any potential conflicts of interest? ☐ Yes ☒ No If yes, please explain:
