5. **COMPENSATION:**

5.1 The parties agree that **CONSULTANT** will provide the **SERVICES** specified in **Section 2** (SCOPE OF WORK) and **CITY** agrees to pay **CONSULTANT** the Contract's compensation based upon Time and Materials and the Scope of Work Fee Schedule for a not to exceed maximum amount of One Hundred Fifty Eight Thousand Dollars and 00/100 (\$158,000.00), and hereinafter referred to as "Contract Sum".

5.2 Contract Sum represents full and adequate compensation for the completed **SERVICES**, and includes the furnishing of all materials; all labor, equipment, tools, and appliances; and all expenses, direct or indirect, connected with the proper execution of the **SERVICES**.

5.3 **CONSULTANT** shall provide **CITY** with a scope of work for each task to be completed and if approved by the Public Works Director, **CONSULTANT** will be provided a "Task Order" authorizing the work.

5.4 **CITY** has provided a sample invoice and **CONSULTANT** shall submit its request for payment using said sample invoice.

5.5 Payment by **CITY** for the **SERVICES** rendered by **CONSULTANT** shall be due within thirty (30) calendar days from the date **CITY** acknowledges that the performance meets the requirements of this Contract or from the date the correct, complete, and descriptive invoice is received by **CITY** employee designated on the sample invoice, whichever is the latter date.

5.6 **CITY** does not agree to reimburse **CONSULTANT** for expenses unless otherwise specified.

following year. All billings for dates of service prior to July 1 must be submitted to CITY no later than the first Friday in August of the same year. A billing submitted after the first Friday in August will subject CONSULTANT to an administrative fee not to exceed \$100.00. The parties hereby agree this is a reasonable estimate of the additional costs to CITY of processing the billing as a stale claim and that this amount will be deducted from the stale claim payment due to CONSULTANT.

7. CONTRACT TERMINATION:

7.1 Termination Without Cause:

7.1.1 Any discretionary or vested right of renewal notwithstanding, this Contract may be terminated upon written notice by mutual consent of both parties or unilaterally by either party without cause.

7.1.2 CITY reserves the right to terminate this Contract for convenience whenever it considers termination, in its sole and unfettered discretion, to be in the public interest. In the event that the Contract is terminated in this manner, payment will be made for SERVICES actually completed. If termination occurs under this provision, in no event shall CONSULTANT be entitled to anticipated profits on items of SERVICES not performed as of the effective date of the termination or compensation for any other item, including but not limited to, unabsorbed overhead. CONSULTANT shall require that all subcontracts which he/she enters related to this Contract likewise contain a termination for convenience clause which precludes the ability of any subconsultant to make claims against CONSULTANT for damages, due to breach of contract, of lost profit on items of SERVICES not performed or of unabsorbed overhead, in the event of a convenience termination.

7.2 Termination for Nonappropriation:

7.2.1 All payments and SERVICES provided under this Contract are contingent upon the availability of the necessary public funding, which may include various internal and external sources. In the event that Carson City does not acquire and appropriate the funding necessary to perform in accordance with the terms of the Contract, the Contract shall automatically terminate upon CITY'S notice to CONSULTANT of such nonappropriation, and no claim or cause of action may be based upon any such nonappropriation.

7.3 Cause Termination for Default or Breach:

7.3.1 A default or breach may be declared with or without termination.

7.3.2 This Contract may be terminated by either party upon written notice of default or breach to the other party as follows:

7.3.2.1 If CONSULTANT fails to provide or satisfactorily perform any of the conditions, work, deliverables, goods, or any SERVICES called for by this Contract within the time requirements specified in this Contract or within any granted extension of those time requirements; or

7.3.2.2 If any state, county, city or federal license, authorization, waiver, permit,

qualification or certification required by statute, ordinance, law, or regulation to be held by **CONSULTANT** to provide the goods or SERVICES or any services required by this Contract is for any reason denied, revoked, debarred, excluded, terminated, suspended, lapsed, or not renewed; or

7.3.2.3 If **CONSULTANT** becomes insolvent, subject to receivership, or becomes voluntarily or involuntarily subject to the jurisdiction of the bankruptcy court; or

7.3.2.4 If **CITY** materially breaches any material duty under this Contract and any such breach impairs **CONSULTANT'S** ability to perform; or

7.3.2.5 If it is found by **CITY** that any quid pro quo or gratuities in the form of money, services, entertainment, gifts, or otherwise were offered or given by **CONSULTANT**, or any agent or representative of **CONSULTANT**, to any officer or employee of **CITY** with a view toward securing a contract or securing favorable treatment with respect to awarding, extending, amending, or making any determination with respect to the performing of such contract; or

7.3.2.6 If it is found by **CITY** that **CONSULTANT** has failed to disclose any material conflict of interest relative to the performance of this Contract.

7.4 Time to Correct (Declared Default or Breach):

7.4.1 Termination upon a declared default or breach may be exercised only after providing 7 (seven) calendar days written notice of default or breach, and the subsequent failure of the defaulting or breaching party, within five (5) calendar days of providing that default or breach notice, to provide evidence satisfactory to the aggrieved party demonstrating that the declared default or breach has been corrected. Time to correct shall run concurrently with any notice of default or breach and such time to correct is not subject to any stay with respect to the nonexistence of any Notice of Termination. Untimely correction shall not void the right to termination otherwise properly noticed unless waiver of the noticed default or breach is expressly provided in writing by the aggrieved party. There shall be no time to correct with respect to any notice of termination without cause or termination for nonappropriation.

7.5 Winding Up Affairs Upon Termination:

7.5.1 In the event of termination of this Contract for any reason, the parties agree that the provisions of this Subsection 7.5 survive termination:

7.5.1.1 The parties shall account for and properly present to each other all claims for fees and expenses and pay those which are undisputed and otherwise not subject to set off under this Contract. Neither party may withhold performance of winding up provisions solely based on nonpayment of fees or expenses accrued up to the time of termination; and

7.5.1.2 **CONSULTANT** shall satisfactorily complete SERVICES in progress at the agreed rate (or a pro rata basis if necessary) if so requested by **CITY**; and

7.5.1.3 **CONSULTANT** shall execute any documents and take any actions necessary to effectuate an assignment of this Contract if so requested by **CITY**; and

7.5.1.4 **CONSULTANT** shall preserve, protect, and promptly deliver into **CITY**

possession all proprietary information in accordance with City Ownership of Proprietary Information.

7.6 Notice of Termination:

7.6.1 Unless otherwise specified in this Contract, termination shall not be effective until seven (7) calendar days after a party has provided written notice of default or breach, or notice of without cause termination. Notice of Termination may be given at the time of notice of default or breach, or notice of without cause termination. Notice of Termination may be provided separately at any time after the running of the 7-day notice period, and such termination shall be effective on the date the Notice of Termination is provided to the party unless a specific effective date is otherwise set forth therein. Any delay in providing a Notice of Termination after the 7-day notice period has run without a timely correction by the defaulting or breaching party shall not constitute any waiver of the right to terminate under the existing notice(s).

8. REMEDIES:

Except as otherwise provided for by law or this Contract, the rights and remedies of the parties shall not be exclusive and are in addition to any other rights and remedies provided by law or equity, including, without limitation, actual damages, and to a prevailing party reasonable attorney's fees and costs. The parties agree that, in the event a lawsuit is filed and a party is awarded attorney's fees by the court, for any reason, the amount of recoverable attorney's fees shall not exceed the rate of \$125 per hour. CITY may set off consideration against any unpaid obligation of CONSULTANT to CITY.

9. LIMITED LIABILITY:

CITY will not waive and intends to assert available Nevada Revised Statutes Chapter 41 liability limitations in all cases. Contract liability of both parties shall not be subject to punitive damages. Liquidated damages shall not apply unless otherwise expressly provided for elsewhere in this Contract. Damages for any CITY breach shall never exceed the amount of funds appropriated for payment under this Contract, but not yet paid to CONSULTANT, for the fiscal year budget in existence at the time of the breach. CONSULTANT'S tort liability shall not be limited.

10. FORCE MAJEURE:

Neither party shall be deemed to be in violation of this Contract if it is prevented from performing any of its obligations hereunder due to strikes, failure of public transportation, civil or military authority, act of public enemy, accidents, fires, explosions, or acts of God, including, without limitation, earthquakes, floods, winds, or storms. In such an event the intervening cause must not be through the fault of the party asserting such an excuse, and the excused party is obligated to promptly perform in accordance with the terms of this Contract after the intervening cause ceases.

11. INDEMNIFICATION:

11.1 To the extent permitted by law, including, but not limited to, the provisions of Nevada Revised Statutes Chapter 41, each party shall indemnify, hold harmless and defend, not excluding the other's right to participate, the other party from and against all liability, claims, actions, damages, losses, and expenses, including but not limited to reasonable attorney's fees and costs, arising out of any alleged

negligent or willful acts or omissions of the indemnifying party, its officers, employees and agents. Such obligation shall not be construed to negate, abridge, or otherwise reduce any other right or obligation of the indemnity which would otherwise exist as to any party or person described in this Section.

11.2 As required by NRS 338.155, if this Contract involves a "public work" construction project as defined above, **CONSULTANT** shall defend, indemnify and hold harmless the **CITY**, and the employees, officers and agents of the public body from any liabilities, damages, losses, claims, actions or proceedings, including without limitation, reasonable attorney's fees, to the extent that such liabilities, damages, losses, claims, actions or proceedings are caused by the negligence, errors, omissions, recklessness or intentional misconduct of the **CONSULTANT** or the employees or agents of the **CONSULTANT** in the performance of the Contract. Such obligation shall not be construed to negate, abridge, or otherwise reduce any other right or obligation of the indemnity which would otherwise exist as to any party or person described in this section. However, with respect to any anticipated benefits to **CITY** resulting from the Scope of Work, **CONSULTANT** shall not be responsible or liable to **CITY** for any warranties, guarantees, fitness for a particular purpose or loss of anticipated profits resulting from any termination of this Contract. Additionally, **CONSULTANT** shall not be responsible for acts and decisions of third parties, including governmental agencies, other than **CONSULTANT'S** subcontractors, that impact project completion and/or success.

11.3 Except as otherwise provided in **Subsection 11.5** below, the indemnifying party shall not be obligated to provide a legal defense to the indemnified party, nor reimburse the indemnified party for the same, for any period occurring before the indemnified party provides written notice of the pending claim(s) or cause(s) of action to the indemnifying party, along with:

11.3.1 a written request for a legal defense for such pending claim(s) or cause(s) of action; and

11.3.2 a detailed explanation of the basis upon which the indemnified party believes that the claim or cause of action asserted against the indemnified party implicates the culpable conduct of the indemnifying party, its officers, employees, and/or agents.

11.4 After the indemnifying party has begun to provide a legal defense for the indemnified party, the indemnifying party shall not be obligated to fund or reimburse any fees or costs provided by any additional counsel for the indemnified party, including counsel through which the indemnified party might voluntarily choose to participate in its defense of the same matter.

11.5 After the indemnifying party has begun to provide a legal defense for the indemnified party, the indemnifying party shall be obligated to reimburse the reasonable attorney's fees and costs incurred by the indemnified party during the initial thirty (30) day period of the claim or cause of action, if any, incurred by separate counsel.

12. **INDEPENDENT CONTRACTOR:**

12.1 **CONSULTANT**, as an independent contractor, is a natural person, firm or corporation who agrees to perform **SERVICES** for a fixed price according to his or its own methods and without subjection to the supervision or control of the **CITY**, except as to the results of the **SERVICES**, and not as to the means by which the **SERVICES** are accomplished.

**Re: Carson City Wastewater Reclamation Plant, Phase 1 Improvements
Proposal for Engineering Services**

Dear Mr. Morris:

Lumos and Associates, Inc. (Lumos) is pleased to provide you with this proposal for engineering and related services for expansion of the Carson City Wastewater Reclamation Plant (CCWRP) based upon our meeting on September 3rd and layout plans provided by Carollo on the same date.

Project Understanding

The proposed project is located at 3300 East Fifth Street, on Assessor's Parcel 010-031-05. More generally, the project is located entirely within the SW ¼ of Section 15, Township 15N, Range 20E, M.D.B.&M. The site is currently situated within the Special Flood Hazard Area as defined by FEMA.

Under a previous task for this project, a Schematic Design for Phase 1 of the CCWRP improvements was completed. Since that time, there have been significant changes relative to the proposed treatment processes and associated Phase 1 improvements. The current layout produced by Carollo is reflected on the attached sketch to which we have added highlighting to show approximate boundaries of grading and paving design to be performed by Lumos. In addition, the extent of desired landscaping was clarified. We propose the following tasks to assist you with your project:

Project Scope

Task 1A – Improvements to Facilities on East Side of Plant

Utilizing the conceptual layout provided by Carollo Engineers and in coordination with Carson City, Lumos will prepare drawings of the proposed Phase 1 improvements. Civil grading and paving design associated with surface improvements will be developed for proposed upgrades to the site that include rerouting process piping, construction of a new electrical building and generator, new secondary clarifiers, new RAS building, new bioreactors, and other facilities on the east side of the existing plant. Civil design will cover embankment fill for new facilities, fine grading, paving, storm water conveyance, and potable and fire water service to service the new facilities. This task will also include work related to the entrance of the facility off of 5th Street. In addition, a conceptual drainage report, a technical drainage report, draft specifications, and cost estimates will be prepared.

As needed for Civil Design, Lumos will supplement the aerial topographic survey to include necessary waterlines and critical storm drainage invert elevations, tie-in surface elevations, and

L:\Marketing\Proposals\2013 Proposals\Carson City\CC13.139 - CC Wastewater Reclamation Plant\CC WRP Proposal - updated Sept. 4th.docx

corners of existing buildings adjacent to proposed improvements. It is assumed that any needed potholing will be excavated and restored by Carson City staff, with coordination from Lumos.

The drawings will be prepared on standard engineering 24" x 36" format sheets and at a standard engineering scale. The layout of the drawings will be coordinated with Carollo Engineers. We assume that there will be a 60% submittal, a 90% submittal, and a 100% submittal with Owner comments to be addressed with each round of plans.

Task 1B –Improvements to Western Side of the Plant

Utilizing the conceptual layout provided by Carollo Engineers and in coordination with Carson City, Lumos will prepare drawings of the proposed Phase 1 improvements. Civil grading and paving design associated with surface improvements will be developed for the slated upgrades to the site that include the access to the existing operations building, ADA improvements and parking associated with the existing operations building, drainage and paving upgrades for the areas generally around the western and southwest portions of the existing facilities. Civil design will cover fine grading, paving, storm water conveyance, and potable and fire water service to service the existing facilities. In addition, a conceptual drainage report, a technical drainage report, draft specifications, and cost estimates will be prepared.

As needed for Civil Design, Lumos will supplement the aerial topographic survey to include necessary waterlines and critical storm drainage invert elevations, tie-in surface elevations, and corners of existing buildings adjacent to proposed improvements. It is assumed that any needed potholing will be excavated and restored by Carson City staff, with coordination from Lumos.

The drawings will be prepared on standard engineering 24" x 36" format sheets and at a standard engineering scale. The layout of the drawings will be coordinated with Carollo Engineers. We assume that there will be a 60% submittal, a 90% submittal, and a 100% submittal with Owner comments to be addressed with each round of plans.

Task 2 – Landscape Design

This task will include preparation of landscape drawings of the project improvements in conformance with the Landscape Master Plan developed for the Wastewater Treatment Facility by Sandra Wendell. The landscaping and irrigation improvements will required at the western, southern, and eastern boundaries with the primary focus being on the 5th Street boundary. , Lumos will prepare 60%, 90% and 100% Landscape Architectural Construction Documents for review and comment. Planting and irrigation plans, notes, and details will be included, along with draft specifications and a cost estimate.

Task 3 – Flood Wall and Access Road

This task will include the extension of the existing flood wall along Airport Road to the north to match in with the existing berm on the north side of the waste water plant. The extension of the wall will include sidewalk improvements along the east side of airport road as well as grading and armoring of the berm to tie in the new wall extension. Also included with this task will be the design of a new emergency gravel access road for the facility to be connected at Fairview via a new gate in the existing split rail fence. Any landscaping design associated with this task would be conducted as part of Task 2. No FEMA coordination, submittals, or modeling are included in this task. The drawings will be prepared on standard engineering 24" x 36" format sheets and at a

standard engineering scale. The layout of the drawings will be coordinated with Carollo Engineers. We assume that there will be a 60% submittal, a 90% submittal, and a 100% submittal with Owner comments to be addressed with each round of plans.

Task 4 – Levee Characteristics

This task will include geotechnical testing of approximately 3,700 lineal feet of levee currently in place on the northern and eastern boundaries of the CCWRP, including the levee segment at the southern boundary, east of the 5th Street entrance. Utilizing the results of six borings to approximately 25 feet below grade, along with mapping and survey data provided by the owner, Lumos will prepare a report summarizing the levee characteristics relative to the design criteria required by NFIP Regulation 65.10 for levee certification, including freeboard, closures, embankment protection, embankment and foundation stability analyses, settlement analyses, and interior drainage. We have assumed that the operation and maintenance plan necessary for accreditation will be prepared by others.

Assumptions / Exceptions

Lumos has made the following assumptions in preparation of this proposal:

- Any required utility extensions not identified above, will be incorporated into the process piping design by others and are not included in the scope of this proposal.
- This proposal does not include design of dry (i.e. power, telephone, gas, etc.) utilities.
- Flood plain modeling is based upon "Technical Memorandum – Alternative No. 7", prepared by Lumos, dated December 21, 2005. No additional modeling is anticipated in this proposal.
- Any submittals to FEMA, including applications for a map revision or levee accreditation, are not included herein.
- Submittals will be made directly to Carson City or if Carson City desires submittals can be made to Carollo Engineers. Submittals to other regulatory agencies are not included herein.
- Aerial survey data will be provided by Carollo for both the site improvements and levee analysis.
- A geotechnical investigation for site improvements is being performed by others.
- Bidding assistance, construction management services, and inspections are not provided herein.
- Demolition Plans will be prepared by others.

This proposal does not include provisions for construction staking, inspection, or materials testing. Lumos will be happy to amend this proposal as necessary to include any of these services.

If this proposal is acceptable, please provide your Task Order for execution. Lumos will send monthly progress billings on this project. The amount of these billings will be based upon the percentage of work completed. The terms are 'Due Upon Receipt' and accounts are past due after 30 days. Accounts over 30 days old will be subject to interest at the rate of 1 ½% per month and such collection action as may be necessary to collect the account. In addition, a "Stop Work Order" may be issued on past due accounts. In this case, no further work will be performed until the account is brought current.

Thank you again for allowing Lumos to provide you with this proposal. Please do not hesitate to call me if you have questions.

Sincerely,

Michael D. Bennett, P.E.
