Agenda Report**

Date Submitted: November 10, 2014

Agenda Date Requested: November 20, 2014

To: Redevelopment Authority

Time Requested: 20 minutes

From: Community Development Department – Office of Business Development

Subject Title: For Possible Action: To accept the recommendations from the Redevelopment Authority Citizens Committee (RACC) regarding long-term priorities for the use of undesignated infrastructure funds and other uncommitted Redevelopment funds. (Lee Plemel)

Staff Summary: The RACC discussed priorities for the use of Redevelopment funds on August 4 and September 3, 2014, and have recommended a priority list for the use of available funding in upcoming years to assist the Redevelopment Authority in making decisions regarding the use of those funds.

Does This Action Require a Business Impact Statement: Yes No

Recommended Board Action: I move to accept the recommendations from the Redevelopment Authority Citizens Committee regarding long-term priorities for the use of undesignated infrastructure funds and other uncommitted Redevelopment funds.

Explanation for Recommended Board Action: The acceptance of the recommended priorities from the RACC will allow the Redevelopment Authority and Board of Supervisors to use those priorities when considering how available Redevelopment funds will be used.

The RACC discussed possible priorities at its meeting on August 4, 2014, and provided staff with suggested projects that the Redevelopment may wish to consider in upcoming years. On September 3 the RACC considered the potential projects and ranked them in order of priority as a recommendation to the Redevelopment Authority. A list of the recommended Redevelopment project priorities is attached, including a brief description of the project and the applicable objectives from the Redevelopment Areas 1 and 2 Plans.

The recommendations are intended to be used by the Redevelopment Authority as a guide when considering the annual budget and how available funds will be used. In order for Redevelopment funds to be assigned to any given project, the Redevelopment Authority and Board of Supervisors must take a separate action to authorize that funding. The acceptance of the project priorities does not allocate any funding to any project.

The 2014-15 Redevelopment budget includes \$271,942 for “undesignated infrastructure projects,” which is money that is currently not designated for expenditure on any specific project. Additional funds are projected in future budget years for this account, which could be used as funding to implement the recommended projects.

For more information regarding the RACC recommendations, contact Lee Plemel (lplemel@carson.org) or Michael Salogga (msalogga@carson.org) in the Community Development Department.

Applicable State, Code, Policy, Rule or Regulation: NRS 279 (Redevelopment of Communities)

Fiscal Impact: N/A

Explanation of Impact: Accepting the recommended project priorities does not authorize any expenditure but establishes a guide for possible future expenditures within available, budgeted Redevelopment funds.

Funding Source: Redevelopment Revolving Fund.

Alternatives: Modify the Redevelopment project priorities.
