Subject Title: For discussion only: Regional Mental Health meeting update. (Sheriff Furlong)

Staff Summary: Carson City governmental, private and non-profit organizations have advanced to create a greater unified effort in the identification and treatment of persons suffering from mental health disabilities. Recognizing the need to address alternative approaches, in 2006 Carson City Justices created the Mental Health Court to address the underlying causes of disruptive behaviors, frequently diagnosed as co-occurring disorders. This approach has evolved into a collaborative overlapping response between entities, with the vision of providing effective transfers of care with greater efficiency in communications. By 2015 the formation of a Regional Mental Health response was implemented where stakeholders from Carson, Lyon and Douglas Counties meet directly to discuss legislation, operations, and response care.
