

**Report To:** Board of Supervisors **Meeting Date:** July 6, 2017

**Staff Contact:** Darren Schulz, Public Works Director

**Agenda Title:** For Possible Action: Provide direction to staff on how to proceed with funding the storm water

management program. (Darren Schulz, dschulz@carson.org)

**Staff Summary:** The Board of Supervisors will be presented with a brief historical overview of the development of the storm water management program, the Utility Finance Oversight rate recommendations and options for using a rate consultant. On March 28th, the Utility Finance Oversight Committee was presented with a staff recommended plan to fund operations and a 10-year capital improvement plan. The Committee recommended changes to the plan which was presented to the Board of Supervisors on May 4th but no action was taken. Staff was later directed to bring back an additional option for using a rate consultant to assist with funding options. Based on this direction, staff provides the following options and recommends Option 2: Option 1 - Keep existing rate structure and program in place with no changes. Option 2 - Adopt the Utility Finance Oversight Committee recommended rate plan. Option 3 - Hire a rate consultant to evaluate elements of the program. Option 3A - Use existing revenue estimated needs and perform up to three alternative cost of services analysis (up to \$50,000). Option 3B - Hire a rate consultant to evaluate the program, perform a gap or needs analysis and recommend options moving forward (up to \$100,000). Option 3C - Hire a rate consultant, reevaluate the complete program with options to accommodate low impact development standards and/or other rebate options (up to \$250,000). The cost to use a rate consultant could vary significantly based upon the depth and breadth of their scope of work and options listed above provide general guidance based on a low, medium and high expenditure. If additional expenses are incurred, staff will need direction on how to fund the expense such as the use of reserve funds, a rate increase or use of an alternative funding source.

**Agenda Action:** Formal Action/Motion **Time Requested:** 30 minutes

#### **Proposed Motion**

Move to direct staff to...

#### **Board's Strategic Goal**

Sustainable Infrastructure

#### **Previous Action**

On May 4, 2017, staff brought forth the Utility Finance Oversight Committee recommended storm water rate plan of keeping the existing rate structure and phasing in an increase of 25% the first year, 35% the second year, and 35% the third year, effective FY2018.

#### **Background/Issues & Analysis**

From a historical perspective, in the late 1990's, the City recognized it will be required to obtain and comply with a National Pollutant Discharge Eliminations System permit and formed a Storm Drainage Advisory Committee to work closely with consultants, to examine stormwater management issues for nearly four years

Final Version: 12/04/15

prior to the establishment of the storm drain proprietary fund. The Committee developed key policies that were used to create a foundation for funding decisions. They examined the practicality of nearly a dozen funding sources and brought forth a recommendation to the Board of Supervisors. In 2003, the Board approved the fee generation method, but acknowledged that the proposed program funding level will not keep the City in compliance with NDEP requirements and that support will be needed through the Street Division and alternative sources such as sales tax levy. Since the inception, the storm water management program has expanded in scope beyond storm water quality, to include storm water control capital improvements and floodplain management, which is the National Flood Insurance Program (NFIP) and Community Rating System (CRS).

#### Applicable Statute, Code, Policy, Rule or Regulation

Financial Information Is there a fiscal impact? $\boxtimes$ Yes $\square$ No	)	
If yes, account name/number: Storm Drain	n Fund	
Is it currently budgeted? $\square$ Yes $\boxtimes$ N	0	
Explanation of Fiscal Impact: The fiscal im	pact will depend on ho	w the Board would like to proceed.
Alternatives The Board may direct staff proceed with other	er options.	
Board Action Taken:  Motion:		Aye/Nay
(Vote Recorded By)

Storm Water Management Program Funding

### **Outline**

#### •Current Program

- •History
- •Elements
- •Expenditures
- •Rate structure

### **•UFOC Proposed Rates**

- Proposed rates
- •Proposed Capital Improvement Plans

#### •Funding Options

- No Changes
- •Adopt UFOC recommendation
- Consultant options

## **History**

Storm Drain Advisory Committee and rate consultants

Storm Water Plan and Utility Adoption

MS4 Permit and renewals

### **Elements**

#### **National Flood Insurance Program (NFIP)**

- FEMA program adopt and enforce floodplain management regulations
  - Reduced rate insurance to property owners
  - Reduced damages to infrastructure, economic disruption and losses
  - Enhanced public safety
  - Qualify for disaster assistance

#### **Community Rating System (CRS)**

- FEMA program further reduced rate insurance to property owners
  - Exceed NFIP requirements
- Qualify for other Federal assistance programs

#### **Municipal Separate Storm Sewer Systems (MS4).**

- Permit issued by NDEP
  - Reduce discharge of pollutants
  - Protect water quality

## **Expenditures**

#### **Storm Water Quality**

- MS4 permit requirements (Federal & State laws)
- 7 Best Management Practices with muliple activities

#### Floodplain Management

- NFIP / CRS (Federal requirements)
- 10 minimum requirements 16 activities

#### **Debt Service**

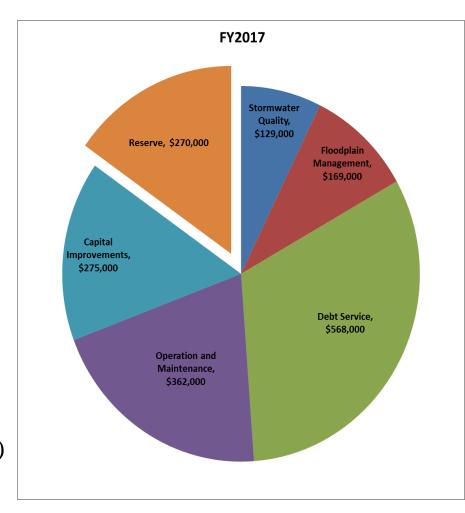

Bonds

#### **Operations & Maintenance**

- Salary, benefits (2.3FTE)
- Services & supplies

### **Capital Improvements**

- System improvements (new and upgrades)
- Culverts, detention basins, ditches, etc.

#### 12.17.020 - Rate policy.

It shall be the policy of the city that the rate structure to be applied in establishing the amount of service charges assessed against each parcel of developed real property within the boundaries of the city shall be based upon the amount of majority of the zoning classification assigned to each parcel of property as defined by Title 18 of the Carson City Municipal Code.

12.17.040 - Service charge rates.

Classification	Monthly Rate
"Single-Family" Property	\$4.38
"Multi-Family" Property	\$22.56
"Public" Property	\$24.64
"Manufacturing" Property	\$29.38
"Commercial" Property	\$31.51

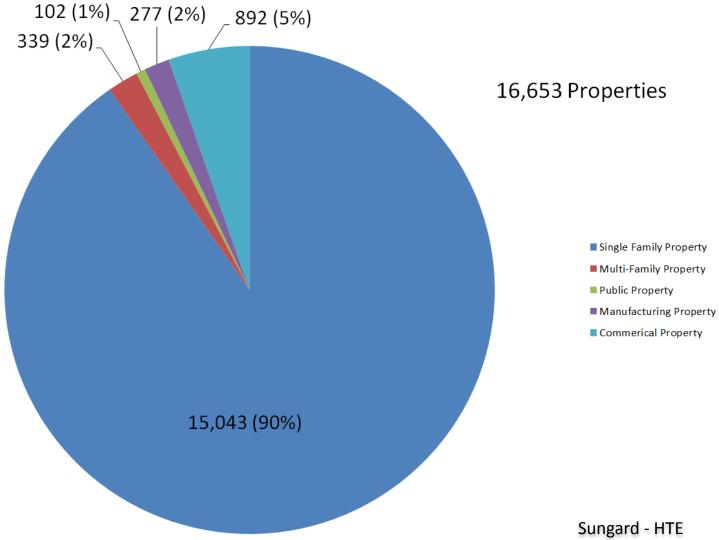

#### <u>12.17.010 - Definitions.</u>

- "Single family" property shall mean developed property that is zoned, in the majority, "SF5A", "SF2A", "SF1A", "SF12", "SF6", "CR", "A", "MH6", "MH12", or "MH1A", all as defined in Title 18 of the Carson City Municipal Code.
- "Multi-family" property shall mean developed property that is zoned, in the majority, "MFD", "MHP" or "MFA", all as defined in Title 18 of the Carson City Municipal Code.
- "Public" property shall mean developed property zoned "P", as defined in Title 18 of the Carson City Municipal Code.
- "Manufacturing" property shall mean developed property that is zoned, in the majority, "LI", "GI", or "AIP", all as defined in Title 18 of the Carson City Municipal Code.
- "Commercial" property shall mean developed property that is zoned, in the majority, "RO", "GO", "NB", "RC", "GC", "TC", or "DC", all as defined in title 18 of the Carson City Municipal Code.
