MEMORANDUM

Historic Resource Commission of September 10, 2020

TO: Historic Resource Commission **Item F-2**

FROM: Hope Sullivan, AICP
Planning Manager

DATE: August 31, 2020

SUBJECT: For Discussion Only: Presentation on Nevada Women's History Project.

Architectural Historian ZoAnn Campana, MPS and Historian Alicia Barber, PhD representing Kautz Environmental Consultants, Inc are working with the Nevada State Historic Preservation Office to create a Historic Context for Women's History in Nevada. The purpose of the historic context is to provide a broad historic overview of women's history in Nevada with an emphasis on suffrage and women's rights through 1980, and to identify significant historic resources associated with those historical developments in the state.

Kautz Environment Consultants are seeking input from the Certified Local Governments, whom they see as potential users of the completed historic context.

Kautz Environmental Consultants will provide an informational presentation about the scope and purpose of the project, and then seek input from the Commission regarding existing historic properties associated with women's suffrage and women's rights in Nevada.
