Background/Issues & Analysis

Nexplanon is solely manufactured by one company and distributed by two companies - CuraScript and TheraCom. CCHHS has been approved to be part of the 340B/Prime Vendor Drug Discount Program, which is a U.S. governmental program that requires drug companies to provide outpatient drugs to eligible health care organizations at a significantly reduced price. Through this program, the Nexplanon price is set and is the same for each company. CCHHS has been approved through CuraScript to buy Nexplanon and does not have approval to purchase through TheraCom.

This was reviewed by the Carson City District Attorney's office in March, 2017 and it was determined that this is an exception to the requirement to go out to bid based on NRS 332.115(o).
