

STAFF REPORT

Report To: Board of Supervisors

Meeting Date:

Staff Contact: Darren Schulz, Public Works Director; Lee Plemel, Community Development Director

Agenda Title: For Possible Action: Discussion and possible action regarding an assessment methodology to implement the South Carson Street Neighborhood Improvement District ("NID"). (Dan Stucky, DStucky@carson.org; and Lee Plemel, LPlemel@carson.org)

Staff Summary: The purpose of establishing the South Carson Street NID is to assess the property owners within the area for the cost of ongoing cleaning and maintenance of the sidewalk, pathways and landscape improvements as part of the South Carson Complete Streets Project to provide for consistent maintenance of the improvements. The proposed NID includes properties directly fronting or accessing South Carson Street between Fifth Street and the I-580/South Carson Street Interchange and properties located between S. Carson Street and Curry Street. Staff will present and discuss the recommended assessment methodology, NID maintenance standards and the process for implementing the South Carson Street NID.

Agenda Action: Formal Action / Motion

Time Requested: 30 minutes

Proposed Motion

I move to approve the assessment methodology to implement the South Carson Street Neighborhood Improvement District.

Board's Strategic Goal

Economic Development

Previous Action

February 20, 2014 - the Carson City Board of Supervisors enacted a one-eighth percent sales tax to help fund improvements to the City's primary commercial corridors, including the South Carson Street project. The approved Plan of Expenditure for the sales tax included a provision that an assessment district would be formed as part of each corridor project to contribute funding annually to the City to provide for routine maintenance required for the corridors such as cleaning sidewalks, maintaining landscaping, servicing trash receptacles, etc. A Downtown Neighborhood Improvement District was formed for the maintenance of the Downtown Carson and Curry Streetscape Project improvements constructed in 2016 and 2018.

March 19, 2020 - the Board of Supervisors discussed the process to implement the South Carson Street NID and determined to not create the NID in 2020 and not to assess the property owners in Fiscal Year (FY) 2021. The Board directed staff to bring back the item in 2021 for possible implementation of the NID in FY 2022.

Background/Issues & Analysis

The South Carson Complete Streets Project was designed with the intent to meet all the strategic objectives identified for the corridor projects in the 2014 plan of expenditures: (1) enhance business access; (2) increase

safety through lighting and roadway improvements; (3) improve pedestrian access and connectivity; (4) add bike lanes; and (5) enhance aesthetics through parkway landscaping and streetscape improvements. The project's purpose is to convert the large South Carson Street corridor into more productive uses that facilitate comfortable, convenient, and safe travel for pedestrians and cyclists; improve access to abutting businesses; spur private investment in this important and vibrant commercial corridor; increase driver safety; as well as create a more aesthetically pleasing and inviting gateway into our City. The overall project includes complete streets improvements from Fifth Street to the Carson City I-580 Freeway terminus (Appion Way), as well as significant upgrades and expansion to critical utility infrastructure along the corridor.

Staff recommends forming one assessment district for the entire South Carson Street corridor (from 5th Street to the I-580 Freeway terminus) as this portion of the Carson Street corridor is wider, contains larger adjacent parcel sizes, and has different improvements and maintenance standards than the Downtown Carson Street corridor. Additionally, the proposed assessment methodology for the South Carson Street NID differs from the assessment methodology used for the Downtown properties under the Downtown NID.

For the Board's review, staff has developed recommended assessment methodology, NID maintenance standards, and the process for implementing the South Carson Street NID. The following is a general summary, highlighting some of the features of the proposed NID:

- Staff evaluated eight different assessment scenarios based on different weighting of building area, parcel area, and frontage length. The recommended assessment scenario consists of 50% weighting of parcel area and 50% weighting of frontage length with no consideration of building square footage. This scenario results in a fair and reasonable distribution of costs across all parcels included in the NID, as well as encourages the development of vacant parcels along the corridor. A comparison of the different assessment scenarios is included as an attachment.
- The NID pays for maintenance of landscaping, sidewalk, and multi-use path improvements and amenities within the sidewalk areas only. The City will continue to maintain the street improvements from curb to curb.
- The property owners within the NID are assessed for maintenance of the improvements along the property frontages of the private and State properties only. The City will continue to pay the full cost of maintenance for the improvements fronting their respective properties, as well as any costs associated with the maintenance of landscaping and sidewalks along the corridor. A map showing the NID boundary is included as an attachment.
- The assessment may not be used by the City for any other purpose than South Carson Complete Streets Project maintenance.
- The assessment to property owners in the first year ("Year One") will be a total of \$119,620, based upon the recommended maintenance standards and most recent maintenance cost estimate. A summary of the annual maintenance cost estimate is attached. Per the recommended assessment scenario, the assessment will be split up among property owners based on the area of each property owner's parcel and length of frontage. For the recommended assessment scenario, the estimated Year One assessment for each individual property is identified within the attachment.
- The maintenance of the sidewalk and amenities will include snow removal of the multi-use path, in addition to sidewalk power washing, trash removal, landscape maintenance, general cleaning, and crack repair and pavement surface treatment of the multi-use path. This level of maintenance protects property values within the NID as well as protecting the City investment in the infrastructure. The recommended NID maintenance standards are included as an attachment.

Attachments:

- 1) NID Boundary Map
- 2) Annual Maintenance Cost Estimate
- 3) Comparison of NID Assessment Scenarios
- 4) Recommended Assessment Scenario- Distribution of Maintenance Costs
- 5) NID Maintenance Standards and Maintenance Exhibits

Applicable Statute, Code, Policy, Rule or Regulation

NRS Chapter 271 (Local Improvements).

Financial Information

Is there a fiscal impact? No

If yes, account name/number:

Is it currently budgeted? No

Explanation of Fiscal Impact: If approved, finance will create the South Carson Street NID as an Agency Fund similar to how we are tracking the activity of the Downtown NID. Assessments would be posted directly to the new South Carson Street NID Agency Fund and invoices for maintenance activities would be paid through that Fund.

Alternatives

Annual Maintenance Cost Estimate

South Carson Street Neighborhood Improvement District (SCNID) Annual Maintenance Cost Estimate

UPDATED:

2/18/2021

Scope Item	Existing Cost	Future Quantity	Future Unit Cost	Unit	Future Cost	Difference (Funded by NID)	Notes
Sidewalk Maintenance		151,905.00	\$ 0.25	Square Feet	\$37,976		Empty trash containers (weekly), trash/leaf/debris removal (bi-weekly), weed control (as needed), and power washing (once annually)
Multi-Use Path Maintenance		105,751.00	\$ 0.37	Square Feet	\$39,128		Trash/leaf/debris removal (bi-weekly), weed control (as needed), snow removal within 24 hours of snow event (2" snow accumulation and rising) Crack repair (crack sealing every 2 years) and pavement surface treatment (slurry/micro seal every 5 years)
Trees		393.00	\$ 50.00	Each	\$19,650		General tree care, pruning
Landscape Area and Irrigation Maintenance		12.87	\$ 3,000.00	Acres	\$45,105		Shrub pruning, plant care, test backflows, repair, controllers, operation, valves & boxes, pest control, weed control, wood & rock mulch, clean-up- litter, trash & debris, accident clean-up, plant maintenance, plant replacement, tree replacement, irrigation watering costs, greenbelt turf area mowing and fertilization
* Parks- Linear Ditch Greenbelt Maintenance	\$ 17,440						
** Public Works- Sidewalk Maintenance	\$ 4,800						
	\$ 22,240				\$141,860	\$119,620	

Notes:

* Represents cost for staff labor costs (\$14,235) and materials/equipment costs (\$3,205) for a total of \$17,440. Staff labor costs include 675 maintenance staff hours (seasonal, inmate and Parks maintenance worker) annually to maintain the Linear Ditch Greenbelt area. The scope of work includes mowing and clean-up, pruning, irrigation repairs, irrigation turn-on and winterization, aeration, and fertilization. Materials/equipment costs include purchase of fertilizer and herbicide chemical, as well as costs associated with equipment repair and maintenance.

** Represents cost for staff labor costs and materials/equipment costs. Staff labor costs include approximately 108 maintenance staff hours annually to perform, weed abatement (spraying and removal) along South Carson Street between Fifth Street and Appion Way.

Comparison of NID Assessment Scenarios

South Carson Street NID Assessment Scenarios					
Assessment Amount: \$111,900					
Building SF / Parcel SF / Frontage LF	Median	Mean	Maximum	Difference between Max and Median	Difference between Max and Mean
33% / 33% / 33%	\$432	\$700	\$6,274	\$5,843	\$5,575
100% / 0% / 0%	\$250	\$700	\$10,229	\$9,979	\$9,530
0% / 100% / 0%	\$380	\$700	\$5,226	\$4,845	\$4,526
0% / 0% / 100%	\$514	\$700	\$5,020	\$4,506	\$4,321

SOUTH CARSON STREET NEIGHBORHOOD IMPROVEMENT DISTRICT (NID) MAINTENANCE LEVEL OF SERVICE STANDARDS

City: Carson City, acting by and through its parks and recreation and public works departments. All City items are noted in grey.

NID: Neighborhood Improvement District [may direct and manage maintenance contract, authorize invoices, submit billing to City for payment]. If an official NID Board is not formed, then Carson City will be responsible for managing the NID maintenance contract.

Maintenance Contractor: Third-party independent provider for landscaping, snow removal, trash removal, and other related services as required.

Effective Date: This agreement will be effective upon the approval of the NID Agreement by the Board of Supervisors and the date of acceptance of bids by the NID/City for work under these standards.

The following maintenance standards outlined in this document shall apply to all maintenance areas (landscape and hardscape) identified in the attached exhibits (Landscape Maintenance Boundaries Sheets 1-12). These standards are to guide regular maintenance tasks for the NID and are not intended for special events. Not all tasks in this document are the responsibility of the Maintenance Contractor, but are incorporated with the intent to ensure clear roles and responsibilities between City, NID and Maintenance Contractor.

Exclusions: Graffiti removal will be the responsibility of the City; all plant material and trees will be under warranty for up to one year after installation and acceptance from the City on the South Carson Street Project (the City anticipates project acceptance in March 2021). The plant material and trees will be under warranty through the 2021 growing season, unless notice is otherwise given by the City. Plant and tree replacements during the warranty period should be coordinated through the City's representative. Tree and plant replacements or additions of plant material shall be conducted in good faith and mutual cooperation between the City and the NID.

Task 1: General Standards

Guidelines: Paved pathways, multi-use paths, concrete sidewalks and other paved areas will be free of litter. Sidewalk and multi-use path areas are identified in the attached exhibits (Landscape Maintenance Boundaries Sheets 1-12). Multi-use path will receive periodic crack repair and pavement surface treatments to maintain the pavement.

General Tasks

Task	Description	Frequency	Season
Clean-up sidewalks & multi-use paths	Sweep/blow sand, rocks, leaves and other debris from sidewalks and multi-use paths.	Bi-weekly or as needed throughout the year.	Year round
Litter Trash, & Debris	Pick-up all litter, trash, leaves and other debris; dispose of properly. Maintain sites to be aesthetically attractive.	Minimum once every 2 weeks or as needed in landscape areas. Trash containers shall be emptied on a weekly occurrence or as needed.	Year round
Clean decorative boulder seating areas	Keep free of hazards and debris by sweeping, washing or blowing	Inspect bi-weekly and clean as necessary	Year round
Weed Control- sidewalks and multi-use paths	Remove all invasive vegetation chemically or mechanically. Maintain minimum 3' set back off roads and sidewalks/multi-use paths/pathways to be clear for ADA access. Pre-emergent or weed abatement chemical treatments shall not negatively affect annual or perennial plants or trees.	Inspect bi-weekly and remove chemically or mechanically as needed	Year Round
Crack repair and pavement surface treatment- multi-use paths	Crack sealing and slurry/micro seal of multi-use path	Crack sealing- Every 2 years or as directed Slurry/micro seal- Every 5 years or as directed	March-November, when pavement and air temperatures permit.

Task 2: Landscape Area Standards

Guidelines: Landscape areas will contain healthy, attractive plants that lend variety, color and interest to the landscape. These areas will be litter, weed and pest free. Landscape areas will be maintained to provide secondary functions such as barriers, and dust and erosion control. All trees, shrubs and other plants will be trimmed, pruned or otherwise maintained to achieve natural form and enhance aesthetics as directed below. Landscape areas are identified in the attached exhibits (Landscape Maintenance Boundaries Sheets 1-12).

Landscape Area Tasks

Task	Description	Frequency	Season
Shrub Pruning	Prune shrub beds to achieve or maintain a natural form specific to the species. Prune out all deadwood. Remove pruning debris from site.	Bi-annually or as necessary for sidewalk, line of sight and traffic clearance.	Winter, Spring, or Fall, based on species' needs.
Plant Care	Prune, remove, and dispose of any dead plant material.	As needed.	Spring and Fall.
Plant Maintenance	Corrective pruning to perennials and shrubs to thin trunk stems and branches; reduce all ornamental grasses to an 8" height with a rounded or angled crown (per U.N.C.E recommendations) between February and March	A minimum of once annually.	During dormancy.
Trees	Prune trees to achieve a natural form specific to the species. Trees shall be pruned for 8' clearance above sidewalks. Remove all stakes & ties after one year; unless the City directs certain trees to remain staked. Inspect existing stakes and repair if needed to prevent damage to new trees. Prune new trees after one year for proper shape and health. Maintain all tree wells at all times to ensure adequate reservoir capabilities and proper form.	As needed or as required for visibility or sight clearance.	As necessary.
Tree and Plant Fertilization	Provide additional nutrients to tree and plants to aide in growth, appearance and overall health.	A minimum of 2 times annually based on recommended amounts for Tree and Plants in landscaped areas. Recommendations may come from City Staff.	As directed
Pest Control	Monitor project limits for pests such as rodent or plant and tree infestation/disease and notify the City of any issues that need to be addressed with pest control.	As needed	Year round.

Task	Description	Frequency	Season
Weed Control	<p>Remove weeds chemically or manually. Remove all weed debris from site.</p> <p>Any weeds greater than 6 inches tall shall be removed manually and not by chemical means. Weeds less than 6 inches tall should be treated chemically with an approved post emergent herbicide product.</p> <p>Remove all volunteer trees, shrubs, and suckers as needed and dispose all of debris.</p> <p>Remove and dispose of noxious weeds by appropriate means. Pre-emergent weed control herbicides shall be applied to all rock mulch and D.G. areas annually.</p>	<p>Inspect monthly, remove or chemically treat as needed.</p> <p>One (1) pre-emergent application in Fall/Winter annually</p> <p>One (1) herbicide application in Spring annually</p>	<p>Year round for weed removal</p> <p>As directed for pre-emergent and herbicide applications</p>
Rock Mulch	<p>Rock mulch must be maintained to be free of debris and uniform coverage, so no weed fabric is exposed.</p>	<p>Rock mulch must be maintained at all times during the course of the contract.</p>	<p>Year round</p>
Rake	<p>Hand raking for small obstructions and debris</p>	<p>As needed</p>	<p>Year round</p>
Leaf Removal	<p>Rake or blow off as needed and haul to landfill</p>	<p>As needed</p>	<p>October 1-February 1</p>

Task 3: Turf Maintenance Standards

Guidelines: Turf areas will be aerated, mowed, fertilized and cleaned of all litter and other debris. Turf areas are identified in the attached exhibits (Landscape Maintenance Boundaries Sheets 1-12).

Turf Area Tasks

Task	Description	Frequency	Season
Greenbelt Turf Area – Mowing	The recommended height of cut for the turf is 3”.	<p>Mowing occurrence will be a minimum 1 time a week during the growing season.</p> <p>Multiple occurrences may be necessary during excessive growth periods to prevent a pile up of clippings on the surface. Any additional mows will be on a “Time & Materials” basis and directed by the City.</p>	<p>March – October.</p> <p>Mowing occurrences may happen before or after this range as directed by the City.</p> <p>Maintenance Contractor to coordinate start date of mowing with the City.</p>
Aerification of Turf Area	A hollow tine aerification to promote growth and combat compaction of the turf area.	Minimum 2 times annually based on industry best practices.	Spring and Fall.
Fertilization of Turf	To promote the growth and enhance the overall health of the turf by providing the Macro and Micro Nutrient supplements.	<p>A minimum of 2 application annually.</p> <p>Amount should be based on the recommended pounds of nitrogen per thousand square feet, per year for the established turfgrass species. The total pounds of product may vary based on the nutrient analysis of N-P-K in the given product.</p>	Annually

Task 4: Irrigation Systems Standards

Guidelines: Irrigation systems will deliver optimum water to each plant type at the lowest cost and with maximum water resource conservation. All systems will comply with legal requirements and will protect safety of the public water system.

Irrigation Systems Tasks

Task	Description	Frequency	Season
Irrigation – Start-up	City responsibility. Charge backflows. System start-up following site specific procedures, check for leaks and proper operation.	Annually or as needed based on weather and drought conditions.	Spring The City reserves the right to direct the Maintenance Contractor to irrigate in the winter season if dry conditions warrant it. The Maintenance Contractor may be directed to hand water as needed in the event the system or zones are not operable for winter season watering.
Irrigation – Test Backflows	Test and repair backflow prevention devices pursuant to Carson City Public Works (CCPW) requirements. Provide copy of completed test certificate to the City.	Annually	After start-up, provide report copies to CCPW no later than June 30th.
Irrigation – Controllers	The Maintenance Contractor will coordinate with the City to utilize the City’s central control system, but the Maintenance Contractor will be responsible to monitor and verify all watering programs.	On-going	During irrigation season or whenever system is operational.

Task	Description	Frequency	Season
Irrigation – Operation	Monitor and adjust system for proper operation.	Maintenance Contractor will notify the Carson City Parks Department if repairs are necessary. City staff to determine whether to fix or pay quoted irrigation repair rate on “Time & Materials” basis.	During irrigation season or whenever system is operational.
Irrigation – Drip Systems	Monitor health of all plants and trees and ensure that all irrigation zones are working properly and adequate irrigation programs are operating and functional.	As needed	During irrigation season or whenever system is operational.
Quick Couplers	Insure proper seating, and placement in valve box, clean from debris	As needed	April 15-November 1

Task 5: Snow Removal Standards and Descriptions

Guidelines: Snow removal items described below will be provided along the multi-use path and other hardscape areas to ensure pedestrian safety within a reasonable timeframe and manner. All areas are identified in the attached exhibits (Landscape Maintenance Boundaries Sheets 1-12).

Snow Removal Tasks

Task	Description	Frequency	Season
Snow removal – Multi-use path	Remove mechanically or physically along multi-use path. General guideline will be after a 2” snow accumulation and rising.	As needed in response to 2” snow accumulation and rising.	October-June

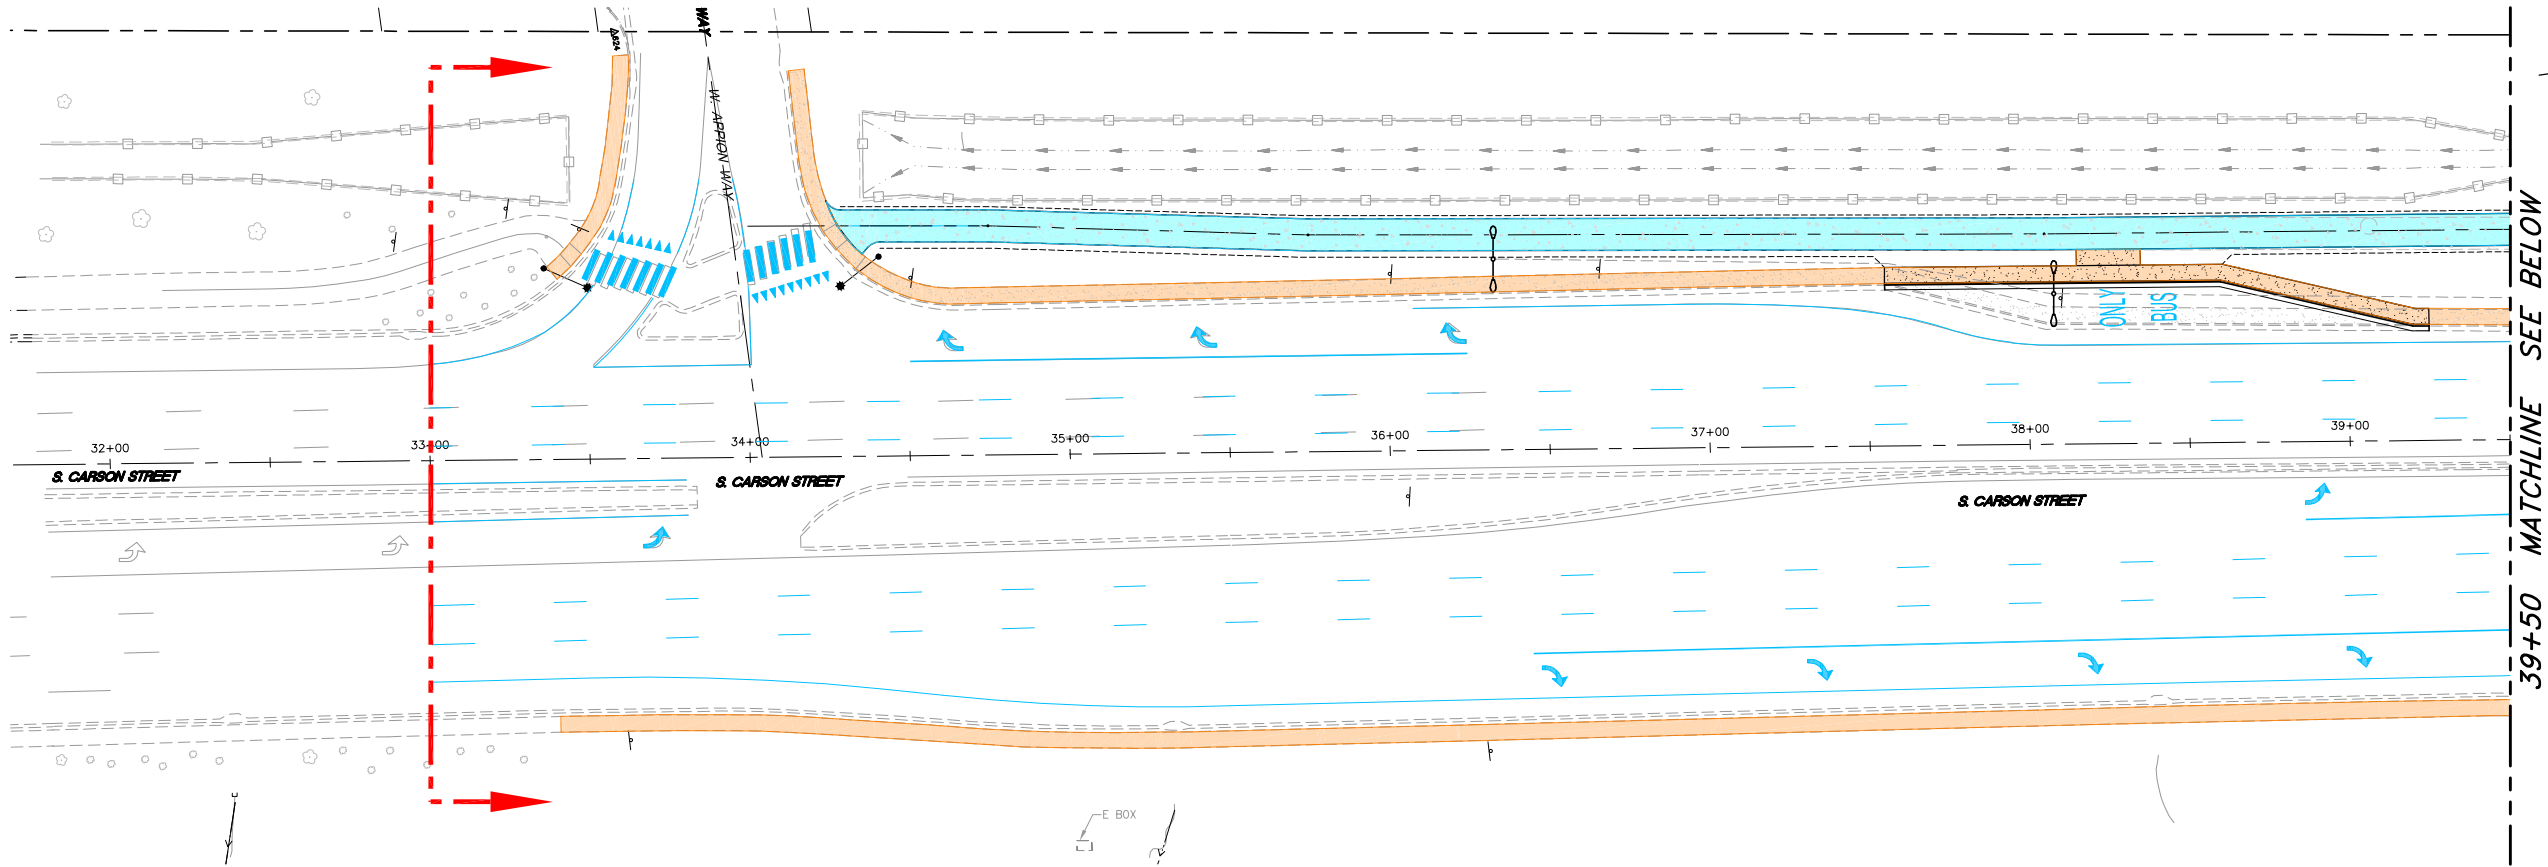

Task 6: Time and Materials Items Standards and Descriptions

Guidelines: Time and Materials items described below will be provided on and all landscape and hardscape areas. All areas are identified in the attached exhibits (Landscape Maintenance Boundaries Sheets 1-12).

Time and Materials Tasks

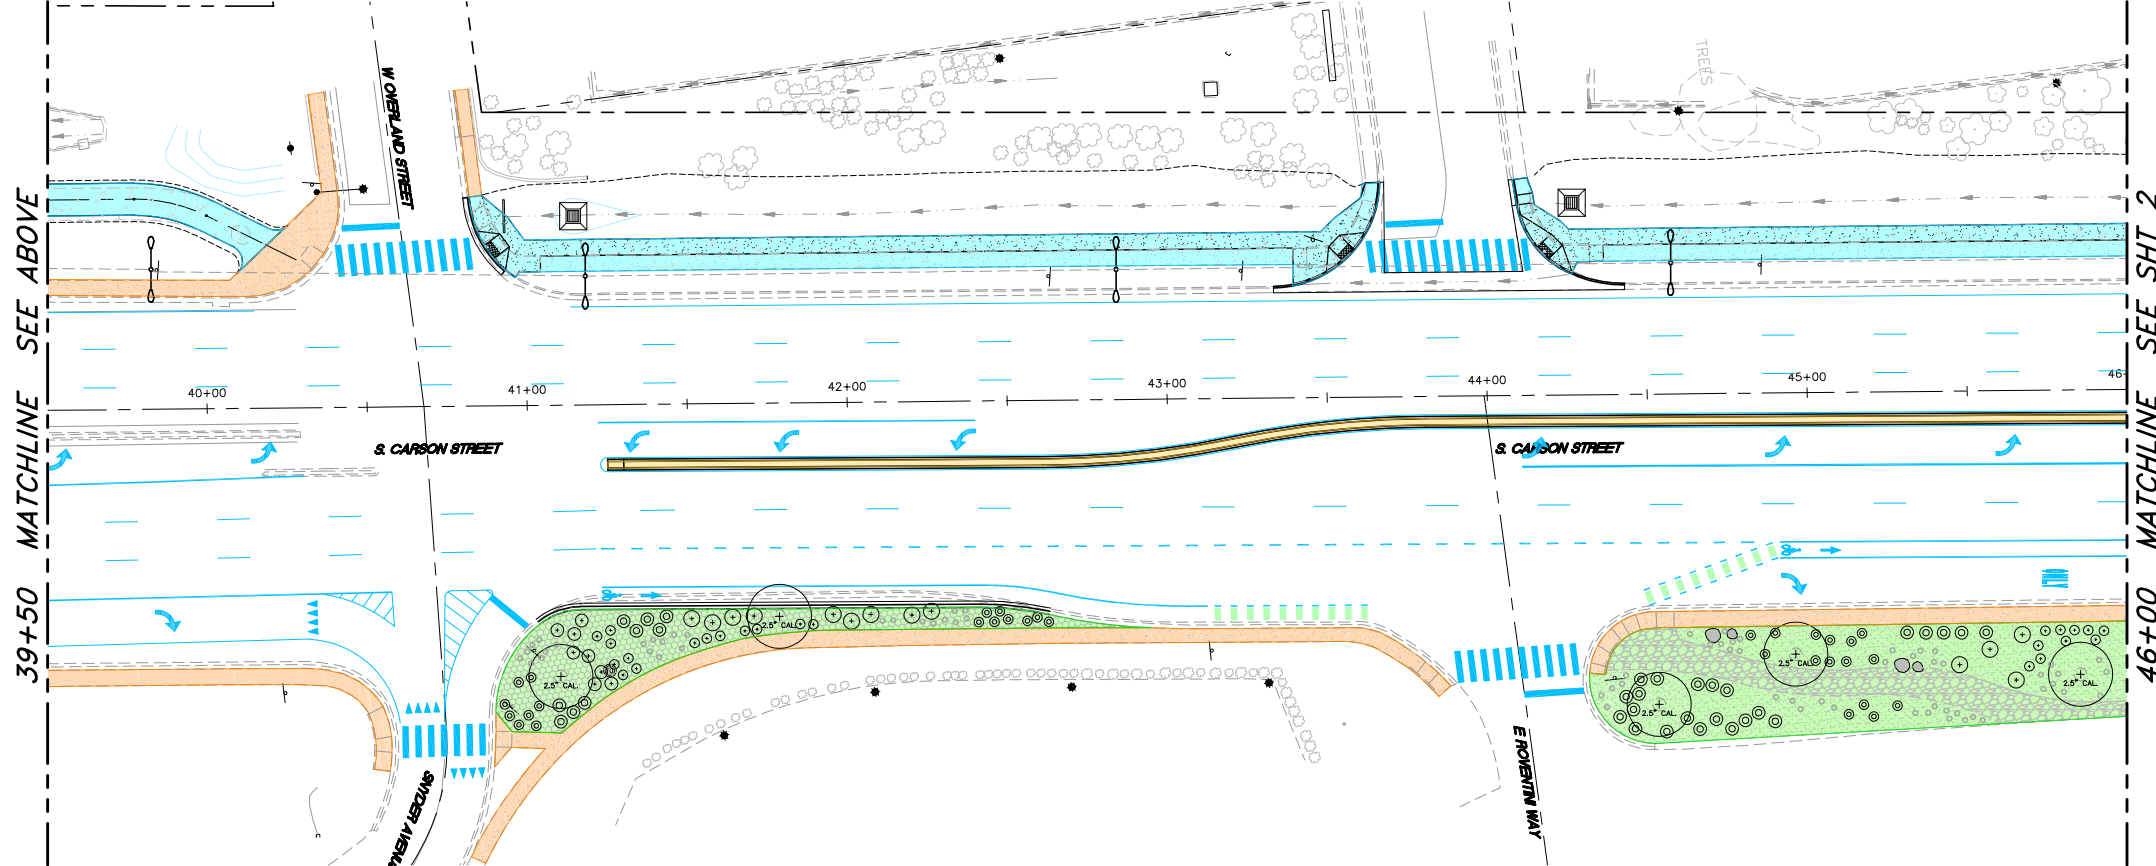

Task	Description	Frequency	Season
Plant Replacement	Replace dead/missing plants with same or approved substitute.	Per occurrence Plant material is covered under warranty for up to one year after installation and project acceptance from the City on the South Carson Street Project (the City anticipates project acceptance in March 2021). Any recommended plant replacements identified during this warranty period should be communicated by the Maintenance Contractor to the City's representative.	Spring.
Tree Replacement	Replace dead/missing trees with same plant species and size/ or approved substitute of species and size. Plantings must conform to City approved planting details provided to the Maintenance Contractor.	Per occurrence Trees are covered under warranty for up to one year after installation and project acceptance from the City on the South Carson Street Project (the City anticipates project acceptance in March 2021). Any recommended tree replacements identified during this warranty period should be communicated by the Maintenance Contractor to the City's representative.	Spring. During irrigation season.
Power washing sidewalk	Power wash sidewalk as directed by the City.	Power washing once annually as directed by the City.	As directed

Task	Description	Frequency	Season
Accident Clean-up	Clean-up from vehicle accidents, including repair of irrigation systems, removal and replacement of plant stock, curbs and walks, general clean-up, and debris removal. Report any vehicular damage or vandalism to the City.	As needed. These instances will be directed by the City. These incidents must be handled within a 24-hour period.	As directed
Clean decorative boulder seating areas	Use proper cleaning agent, scrub seats, wash down, and remove standing water. Notify owner of vandalism or safety concerns.	Steam cleaning or similar method.	As directed
Additional Greenbelt Turf Area – Mowing	The recommended height of cut for the turf is 3”.	Additional cost for mowing above the minimum 1 time a week during the growing season.	Year round Mowing as directed by the City.
Irrigation – Operation	Monitor and adjust system for proper operation.	Maintenance Contractor will notify the Carson City Parks Department if repairs are necessary. City staff to determine whether to fix or pay Maintenance Contractor	During irrigation season or whenever system is operational.
Irrigation – Valves & Boxes	Repair valves, wires and solenoids, and boxes; maintain visible box lids, replace or raise when necessary. Keep all valve boxes bolted down with stainless steel bolts to provide security and deter vandalism.	As needed whenever damage is present and as directed by the City.	During irrigation season or whenever system is operational.
Irrigation – Upgrades and New Installation	Upgrade/install new drip systems.	As directed by the City.	As necessary.
Aerification of Turf Area	A hollow tine aerification to promote growth and combat compaction of the turf area.	Additional aerifications may be recommended by City staff based on overall condition of turf.	As necessary.
Repair & Replace Heads	Broken heads and lateral line leaks/breaks to be repaired or replaced before next watering cycle by Maintenance Contractor, includes material failures, vandalism etc. All repairs performed by Maintenance Contractor. On a preventative basis, replace all heads at each site with new or reconditioned sprinkler heads.	Maintenance Contractor will notify the Carson City Parks Department if repairs are necessary. City staff to determine whether to fix or pay Maintenance Contractor	April 15-June 30
