Hello Board of Supervisors and Ms. Nancy Paulson,

Thank you for the information on American Rescue Plan Funds yesterday.

We have come through a year and a half of Covid experience and yet it is difficult to get real information on prevention methods such as improving your natural immune system to reduce the ravages of Covid.

I would like to suggest wellness awareness clinics for residents using the America rescue plan funds. This is out of the box thinking but I expect the residents will benefit enormously. For example, testing for vitamin D levels such as the clinic in Carson Valley (photo attached) or in my case by Medicare. The goal should be to raise 25 (OH)D concentrations above 40-60 ng/mL (100-150 nmol/L). In addition, we can take this opportunity to raise the nutrition knowledge and exercise for the overall health in this community.

This is the single most valuable use of the American Use Funds and fits the eligibility requirements of this program. I spoke to Stephanie yesterday at the meeting. I have spoken to the CEO of Carson Tahoe, Alan Garret about the wellness education clinics and he thinks it is a great idea. So there can be partnerships with area hospitals.

I am attaching an article and a photo of the clinic in Carson Valley and an article on Vitamin D w.r.t Covid.

Look forward to your thoughts.

Thank you,  
Betsy Strasburg

Carson City Board of Supervisors Meeting August 5, 2021

Re: Agenda Item 12B

To Carson City Board of Supervisors,

I am an avid tennis player as are many of my friends. I am very supportive of Carson City's Parks & Rec's funding request for Centennial Tennis Facility as stated in Item 12B. As you are aware, the tennis facility is in dire need of repairs on all courts. This item is allocating \$330,000 to repairing and improving eight . Centennial Park tennis courts. We will once again have a premiere tennis facility for residents to enjoy.

Thank you,

Koko Green

**From:** [Dave Whitefield](#)

**Subject:** Public comment on Item 12B regarding the American Recovery Plan Act fund proposal for BOS consideration  
**Date:** Wednesday, August 4, 2021 9:00:35 AM

---

**This message originated outside of Carson City's email system. Use caution if this message contains attachments, links, or requests for information.**

---

My name is Dave Whitefield. I am a resident of Carson City, and a Commissioner on the Parks and Recreation Advisory Commission. The following comments address Item 4b of the Staff Report dated August 5, 2021, regarding the Plan of Expenditure for American Rescue Plan funds granted to Carson City by the U.S. Department of Treasury.

Item 4 is "*Investments in improving outdoor spaces*" and Item 4b is a suggested allocation of \$500,000 for new pickleball courts at Mills Park. I am in favor of this item for many reasons.

My wife, Juana Beguelin, and I led an effort to convert two of the old tennis courts at Mills Park into eight dedicated pickleball courts. This project was completed in September 2020 at a cost of approximately \$16,000. The funds were raised by players in Carson City and the surrounding areas, and were held and disbursed by the Foundation for Carson City Parks and Recreation (FCCPR). Our group has continued to raise funds for the ongoing maintenance and improvement of the facility. The actual work was performed by a team of 25 to 30 volunteers. We also benefited from a labor donation from Finest Fence to install net post sleeves, and the great support of the Carson City Parks and Recreation Department. The group patched holes and cracks in the old surface, completely coated both tennis courts (over 14,000 square feet) with a special pickleball surface material, layed out and striped the court lines and installed the permanent nets. Our group continues to maintain and improve the facility, with the support and cooperation of the Parks and Recreation Department.

Pickleball is one of the fastest growing sports in the country. It is a game that is easily taught, and can be quickly learned and enjoyed by people of all ages. We are fortunate to have a fantastic indoor facility (the MAC) for play during the winter season and the hotter parts of the summer. However, prior to converting the tennis courts at Mills Park, there were no permanent outdoor pickleball facilities in our area. Many other cities around the country have discovered the advantages of building these types of facilities, for the health benefits of their citizens, and the economic benefits to their communities. The idea behind our project was to demonstrate the demand for a permanent outdoor pickleball facility in Carson City, in hopes of encouraging the City to invest in a newer, more robust facility. A facility with a minimum of 12 courts would be capable of supporting not only the local player contingent, but also enabling regional tournament events capable of drawing substantial tourist dollars to Carson City. The demonstration project has succeeded well beyond our dreams. A typical day finds between 20 and 40 players enjoying the courts (capacity is 32 players simultaneously). Play typically occurs in the mornings and again later in the day toward evening. Players come from the local area (Carson City, Dayton, Fallon, Reno/Sparks, Minden/Gardnerville, Lake) and from around the country. I field between 8 and 20 calls per week from visitors to Carson City wanting to play at the courts. The demand for this type of facility has been clearly demonstrated.

I am writing to voice my strong support for the allocation of funds from the American Rescue

Plan as outlined in Item 4a of the previously mentioned Staff Report. I believe the new pickleball facility would provide great physical and mental health benefits, as well as economic benefits to our community. With the Mills Park Master Plan Revision currently underway, we have an opportunity to add a component that would make Carson City a "pickleball destination" city, bringing in tourists from around the country. I urge the Board to support this proposal.

Thank you,

Dave Whitefield

RE: Agenda Item 12B

Dear Carson City Board of Supervisors:

As residents of Carson City, I am an avid tennis player, I wholeheartedly support Carson City's Parks and Rec's funding request for Centennial Tennis Facility as stated in Item 12B. As you are aware, the tennis facility is in dire need of repairs on all courts.

***4. Investments in improving outdoor spaces. \$ 3,080,000***

**a) Centennial Park tennis courts (4) \$ 330,000**

**b) Mills Park pickleball courts (12) \$ 500,000**

**c) Park restrooms (Mills Park, Riverview Park and various other City parks) \$ 2,250,000**

This critical funding will allow all 8 courts to be improved and for the Capitol City to once again have a premiere tennis facility for residents to enjoy, adult and youth programs to be offered, and tournaments to be hosted!

We are smiling from ear to ear!

Thank you!

Robert C. McCann – Avid local tennis player

RE: Agenda Item 12B

Dear Carson City Board of Supervisors:

My name is Ryder Kiel and I am 14 years old. I play tennis a lot and wanted to write in support of Carson City's Parks and Rec's funding request for Centennial Tennis Facility as stated in your Agenda Item 12B. I play out at Centennial Park and the facility is in rough shape. Please grant this funding request so the courts I play on can be fixed and we can have tournaments where more kids can come and play.

Thank you!

Ryder Kiel

Carson City Board of Supervisors Meeting Aug. 5

RE: Agenda Item 12B

Dear Carson City Board of Supervisors:

As residents of Carson City, local tennis players (we love to try!), fledgling pickleball players, and parents of a 9<sup>th</sup> grade United States Tennis Association (USTA) ranked and Universal Tennis Rating (UTR) rated tennis player, we wholeheartedly support Carson City's Parks and Rec's funding request for the Centennial Tennis Facility and the Mills Park PickleBall Facility as stated in Item 12B.

***4. Investments in improving outdoor spaces. \$ 3,080,000***

**a) Centennial Park tennis courts (4) \$ 330,000**

**b) Mills Park pickleball courts (12) \$ 500,000**

**c) Park restrooms (Mills Park, Riverview Park and various other City parks) \$ 2,250,000**

As you are aware, the tennis facility is in dire need of repairs on all courts. This critical funding will allow all 8 courts to be improved and for the Capitol City to once again have a premiere tennis facility for residents to enjoy, adult and youth programs to be offered, and tournaments to be hosted!

Our family is ready to help with items such as landscaping, painting, and helping replace the practice wall (a critical element at a tennis facility). We love Centennial Park and are so excited to see it back in shape! Tennis is a sport that is quintessentially socially distanced so can meet the needs of today, but is also a lifelong sport keeping kids and adults active into the future.

We are smiling from ear to ear!

Thank you!

Carson City Board of Supervisors Meeting Aug. 5

RE: Agenda Item 12B

Dear Carson City Board of Supervisors:

I am writing in support of the funding request put forward by Carson City Parks and Recreation (Item 12B) to restore the remaining tennis courts at Centennial Park. This is such a great asset for people of all ages and abilities, both residents and visitors.

Repair and resurfacing of all eight courts at Centennial will allow us to host regional tournaments again, bringing tennis lovers of all stripes to Carson City!

Thank you to Parks and Rec staff for putting this forward and thank you to the Board of Supervisors for your consideration.

Gratefully,

Laura Hale

Dear Members of the Board,

My name is Steve Woodbury. I am a lifelong Nevadan and 25-year resident of Carson City.

First, I want to thank the Board, and the City, for your support of pickleball in our community to date. You have recognized the rapidly increasing interest in this sport and have been responsive and helpful.

The growing pickleball community has also done its part. We have raised funds and volunteered to help establish some courts and maintain them, patiently waiting for public resources to become available. Now that ARP funds have been identified, I wholeheartedly support using a portion of these dollars to establish permanent, maintained courts at Mills Park.

Pickleball is a wonderful, multigenerational sport that is becoming interestingly popular. Clearly, it has become a priority to many Carson City residents, and it is great to see the City responding in kind.

Thank you for your continued support of this activity that is bringing Carson City families and residents, young and old, together.

Kind regards,  
Steve Woodbury

Robert Harris

Good morning I would like know if or when the board of Supervisors will put a proposal up to ban the cultivation of marijuana outdoors? Perhaps 1500 feet from all schools could be considered for no outdoor cultivation? On another topic I hope some of the Federal funds will go towards crime prevention programs and protecting our low income seniors from inflation. The inflation is a result of the federal government printing money due to the pandemic. Homelessness is tragic and a proverbial death sentence for seniors. I don't think the Orsmby hotel is an option but I see more and more homeless around town and have personally have had to ask the unfortunate to not camp out next to where my children play outside. I know you all do your best. Thank you all for giving your best efforts to our great town.

Thank you for taking the time to read my comments.

My name is Sunny and I am a brain cancer survivor. At the age of 47, I presented in the hospital with a tumor the size of an egg that had obliterated my frontal lobe and pineal gland. I am lucky to be alive. I have had a full resection craniotomy and have had two full treatments of Cyberknife Focused Radiation. I also have COPD and digestive issues. Catching Covid could be a death sentence for me, with my weakened health. This is why I'm sending written comments, instead of appearing in person at the Board meeting. Thank you for this option.

According to my professional medical team, the reason I am able to survive this chronic disease, and the reason the tumor's growth is still inhibited after treatment, is directly related to my Cannabis consumption. It saves my life every single day. I could argue the benefits of this miracle plant that is provided to us by our Mother Earth for HOURS, but I will limit my comments to the issue at hand; curbside Cannabis pickup.

Since the beginning of the Covid lockdown, I've been blessed with the ability to safely purchase my Cannabis medication from inside my vehicle, at the curb DIRECTLY IN FRONT of the dispensary. This has been NO LESS THAN a life-saving interaction for me. Simply entering the dispensary and perhaps touching a surface or breathing someone else's air, could have infected & killed me.

My curbside server is masked, Security is a visual presence and only a few specific, safe spots are marked for curbside use - and are not in any way interfering with neighboring businesses. When I am there, I feel welcomed, safe, protected and healthy. If you force me to walk inside the dispensary given my medical history, you could be signing my death warrant - as well as the death warrants of many other patients.

Because that is what we are; patients.

I've been able to meet my household needs during Covid, by doing curbside pickup of my other prescription medications and groceries, and I will continue to do so in the future. It makes ZERO SENSE to me that you would force a different set of customer service rules on one specific type of business.

It is discriminatory business practice to force one business to serve its customers in a different fashion than neighboring businesses are able to do. You are not, as a Board of Supervisors, allowed to selectively lose business for only a particular type of business over others. It shows favoritism, and it speaks VOLUMES to the fact that the Board would see fit to inhibit my ability to obtain SAFE & UNFETTERED ACCESS to my life-saving medication.

The Board's opinion on Cannabis legality is not needed, as laws are already in place protecting my right to medicate...and live.

Do the right thing and vote to continue curbside Cannabis pickup, so that I may live to see my grandkids grow up.

Thank you for your time.

With Warm Regard,

Sunny Caudill

Carson City Council,

My name is Anna Kintzer, and I oppose the proposed ordinance potentially banning curbside services within the cannabis space. With extra safety measures coming back into effect, the service will be necessary for those who need social distancing. Modifications can always be made, but getting rid of the entire process itself is uncalled for. This will put a vulnerable population at risk, as well as downsize a valuable resource to the state of NV.

Anna Kintzer

## To: Carson City Board of Supervisors

Re: Prohibiting Curbside Pickup

As a medical and recreational dispensary, we should be allowed to offer curbside pickup to patients. I am a current Budtender and I am involved with the highly monitored curbside operations. I believe that there is a moral obligation to offer a curbside pickup option to patients.

1. All curbside processes are monitored and recorded through surveillance cameras, ID verification, delivery and POS systems. We verify each ID, every time there is a purchase. The safety precautions that are put in place are to prevent criminal activity and ensure safety.
2. It is a safe option for elderly, handicapped and special needs people to pickup their medicine, due to limited mobility.
3. In our current pandemic state, there is also a point to keep operations as contactless as we can.

It is morally imperative to offer a curbside pickup option to patients to ensure health and safety for all parties.

Regards,

Sarah Carballo

**Re: Curbside Pick-up of Cannabis Products**

**Delivered: Via e-mail**

Dear Mayor and Supervisors:

I write in regard to item 12.E on the August 5, 2021 meeting agenda, which concerns the introduction of an ordinance prohibiting the curbside pickup of cannabis products. I wish to express my support of the prohibition.

The proposed ordinance more closely resembles a public safety measure than a business regulation. Beginning with the 2016 murder of Grant Watkins in Carson City, there have been no less than three robberies in our immediate area connected with the sale of marijuana to the occupants of a vehicle. In all three of these incidents, gunfire was exchanged. Two young men were murdered during the perpetration of these crimes. These are the incidents that we know of. It is virtually certain that other similar incidents went unreported to law enforcement for obvious reasons.

These incidents are indicative of the lengths to which some individuals will go to illegally acquire cannabis. Underaged individuals who cannot legally acquire cannabis products from a licensed establishment pose a particular danger in this regard. Of course, none of these incidents involved a licensed cannabis establishment. But that proves the point. The two retail establishments licensed by Carson City have gone to extraordinary lengths to implement safety measures to deter the illegal acquisition of cannabis products and keep their employees safe as legal transactions are processed. These measures have worked. To date, my office is not aware of a single criminal incident involving either of Carson City's two licensed establishments.

Public safety was this Board's primary concern when it considered whether to license retail cannabis establishments in Carson City. The two establishments that were ultimately licensed assuaged that concern with assurances of safety measures and protocols designed to minimize the risk to the community's safety. Curbside delivery was never part of that equation. The COVID pandemic created a different kind of public safety hazard, prompting the State to make the curious decision to unilaterally permit curbside delivery of cannabis products statewide in April, 2020. SB 168 corrected this course, authorizing local governments to decide the curbside delivery issue for themselves.

No doubt, opponents of the proposed measure will point to the period of time when Nevada has allowed curbside delivery as proof that it can be accomplished without compromising the public's safety. That is certainly fair evidence for the Board to ponder. But so is this: it only takes one tragic event to turn curbside delivery from a calculated risk to a foolish gamble. The fact that such a tragedy has yet to occur offers little comfort.

The licensed retail establishments have been able to conduct their business safely in large part because they are able to completely control the environment in which cannabis transactions occur. Cannabis products are secured. Employees are in areas that are physically inaccessible by consumers. Surveillance cameras capture and record transactions. A curbside exchange cedes almost total control over the transaction environment to the consumer. For legitimate consumers, the result is convenience. But for the criminal masquerading as a legitimate consumer, the result is a much easier opportunity.

Sincerely,

/s/ Jason D. Woodbury

**This message originated outside of Carson City's email system. Use caution if this message contains attachments, links, or requests for information.**

---

Prohibiting the licensing of a cannabis consumption lounge will directly impact the growth of Carson City as a tourist destination. I find it ludicrous that drinking in the downtown area is legal but cannabis consumption won't be. Furthermore, codifying the public consumption ordinance by establishes a penalty that could result in punishment by a fine up to \$1,000 or by imprisonment in the City jail for a term up to 6 months, or by both a fine and imprisonment is once again making marijuana illegal even though the majority of the state believe it should not be and most especially people should not be spending time in jail for marijuana crimes. Also, the people most affected by this law would be the poor who cannot afford to pay a fine and will have to sit in jail to pay it off. Our jails are already full and there should really be an impact statement on the cost of enacting such a penalty.

I hope that the Board of Supervisors either put off making this decision until more members of the community can weigh in and they think very hard before codifying anything.

Thank you,

**Cindy Walker**

Carson City Council:

My name is Christine Gamez and I 100% oppose the proposed ordinance potentially banning curbside service within the cannabis space. Quite frankly, there is no reason to do so. There are means to modify if needed, however, there are hundreds of patrons that are attempting to slow the spread of Covid-19 and are doing this by just strictly doing curbside pick-up at Walmart for groceries, CVS for their prescriptions and Dispensary for their medications. You will be hurting a vulnerable population if this is put in place. I plead to you to put the people first before political agendas. I personally have utilized this service at BOTH facilities in Carson this month and ALL persons in my vehicle were ID'd and all regulations have been followed. This has been in place for a while now and has been an incredibly valuable resource to the Carson City residents.

Thank you for your time and consideration in this matter.

I had hoped when I voted in the last election that we might have a fair minded board of supervisors.

Instead, you choose to go after Cannabis lounges and curbside pickup?! OK, I can see a potential problem with a lounge, but curbside pickup is a reality at both dispensaries in town.

And curbside pickup is for a good reason. Go to one of the dispensaries and look at the number of people hobbling in on crutches and walkers. Look at the elderly, look at the cancer patients. It isn't easy hobbling into a dispensary, and for some with serious health problems there is the danger from COVID in a crowded building.

Curbside pickup is needed, it works well, and it should be a non issue. I strongly urge a no vote on this.

We could assistance with rent increases, food increase, energy increase including our laundry room increase and increase in our medicines. Our social security cola increase in no way even comes close to the living cost. Maybe a program we could apply to for help. I just know we a sinking. Thank you

I would like to talk about getting more enforcement for speeders in Beat 2 of Carson City.

I would also like to ask for speed bumps on my street, as well as Sherman Ln and Carmine St. I just moved back to Sneddon Way after 10 yrs and am shocked at the speeding and distracted vehicles that fly down my road. Animals and pedestrians have been hit. I was hit in front of my house. A speeding van caught the attention of a driver who "maneuvered" he car to the right side of the road to miss the speeding van, and his car hit me.

There are elderly people walking their pets, mothers pushing babies in strollers while their kids ride their bicycles nearby, and a pet might escape a yard. We need help in slowing drivers down and making them pay attention! PLEASE HELP!

---

Dear Mayor Bagwell and Board of Supervisors:

The St. Teresa of Avila Conference, St. Vincent de Paul Society has been providing tenant-based rental assistance in Carson City for over 10 years. We want to thank you for awarding our all-volunteer organization multiple CSSG annual funds to support our Homelessness Prevention project. We have received \$11,750 and \$18,000 in previous years, and we currently have \$20,000 in CSSG funding for Homelessness Prevention. The St. Vincent de Paul Society coordinates our efforts with those of Carson City Human Services (CCHS) and Nevada Rural Housing Authority (NVRHA) to minimize duplication of services. We focus our efforts and limited funds on individuals and families that need \$300 or less of one-time rent assistance, while CCHS and NVRHA handle the more complex and difficult tenant-based rental assistance situations.

Attached are two annual summary reports highlighting how your CSSG funds have been spent to assist Carson City residents. Our collaboration with you provided tenant-based rental assistance to 57 households (169 adults and children) from July 1, 2019 – June 30, 2020. During the period of July 1, 2020 – June 30, 2021, financial support was given to 57 households (135 adults and children). As a result, over the most recent 24 months, our CSSG Homelessness Prevention projects have delivered **9120** safe and secure nights for Carson City residents facing possible eviction from their primary residences. The cost and investment for one person (adult or child) to prevent homelessness by stopping eviction proceedings for one month is **ONLY \$3.26 per night**. This year, we will be assisting senior citizens, disabled citizens and families with children with our current \$20,000 CSSG funds.

We look forward to another successful Homelessness Prevention Project throughout this Fiscal Year and for additional years into the through your continued CSSG funding.

Sincerely,

Edward Choklek, President

St. Teresa of Avila Conference, St. Vincent de Paul Society

Carson City Board of Supervisors Meeting Aug. 5

RE: Agenda Item 12B

Dear Carson City Board of Supervisors:

As residents of Carson City, local tennis players and/or parents of tennis players, we are wholeheartedly support Carson City's Parks and Rec's funding request for Centennial Tennis Facility as stated in Item 12B. As you are aware, the tennis facility is in dire need of repairs on all courts.

***4. Investments in improving outdoor spaces. \$ 3,080,000***

**a) Centennial Park tennis courts (4) \$ 330,000**

**b) Mills Park pickleball courts (12) \$ 500,000**

**c) Park restrooms (Mills Park, Riverview Park and various other City parks) \$ 2,250,000**

This critical funding will allow all 8 courts to be improved and for the Capitol City to once again have a premiere tennis facility for residents to enjoy, adult and youth programs to be offered, and tournaments to be hosted!

We are smiling from ear to ear!

Thank you!

Ty McMillen

Carson City Board of Supervisors Meeting Aug. 5

RE: Agenda Item 12B

Dear Carson City Board of Supervisors:

As a resident and local tennis player, I am excited about the possibility of getting tennis back in Carson City! I wholeheartedly support Carson City's Parks and Rec's funding request for Centennial Tennis Facility as stated in Item 12B. As you are aware, the tennis facility is in dire need of repairs on all courts.

- Investments in improving outdoor spaces. \$3,080,000
- a) Centennial Park tennis courts (4) \$330,000
- b) Mills Park pickleball courts (12) \$500,000
- c) Park restrooms (Mills Park, Riverview Park and various other City parks) \$2,250,000

This critical funding will allow all 8 courts to be improved and for the Capitol City to once again have a premiere tennis facility for residents to enjoy, adult and youth programs to be offered, and tournaments to be hosted!

Thank you!

Sincerely,  
Eldon Wilson

Mayor Bagwell  
Via Email

Mayor:

Thank you for meeting with me and Sierra Well staff on August 3, 2021.

We appreciated your observation of Sierra Well curbside operations. As we discussed, curbside delivery continues to make sense in light of the resurging pandemic in order to reduce contact between guests and employees. Many customers appreciate the convenience of curbside service, which is a more efficient method that diminishes parking impacts, foot traffic, and queuing outside our store. Sierra Well currently conducts as much as 40% of our business through curbside service, where each order may be prepared in advance with transactions completed in a fraction of the time compared to conventional, in-store orders. Sierra Well employees carry cash and product for curbside deliveries under the oversight of a security officer, which relieves customers of the necessity of carrying cash or product between the store and their vehicles. This enhanced efficiency lessens congestion and queuing outside the stores. The staff report associated with the proposed ordinance accurately notes that eliminating curbside would have a negative economic impact to our business, as well as tax revenues to the city.

Finally, please note Sierra Well conducted a petition regarding curbside delivery from July 30th to August 3rd asking participants if they wanted to keep curbside services in Carson City. Over 400 petition participants indicated their desire to keep curbside delivery for a variety of reasons. Many customers value curbside to accommodate their disabilities, physical limitations, and safety.

Regardless of the Board's action with regard to the ordinance under consideration, Sierra Well will immediately implement the following specific changes, which are consistent with the code changes as proposed by Silver State Government Relations via separate letters:

- Eliminate advertising, logos, and signage from shade structures used by security and guests outside
- Eliminate the Curbside designations for parking spaces adjacent to Highway 50 and retain curbside parking designations only on the spaces immediately in front of the dispensary
- Omit logos and advertising from the curbside parking signs
- Diminish the total signed and designated curbside spaces from 8 to 5
- Establish screening to limit the visibility of curbside operations from Highway 50
- Continue to voluntarily and proactively consult with your office, and concerned agencies, regarding operations

Sincerely,

Andrew Koetting  
General Manager

A handwritten signature in blue ink, appearing to read 'Andrew Koetting', is written over the typed name and title. The signature is fluid and somewhat abstract, with a large loop at the beginning and a long horizontal stroke extending to the right.

Conceptual Amendment to Ordinance No. 2021-\_\_\_\_\_

AN ORDINANCE RELATING TO CANNABIS; PROHIBITING CURBSIDE PICKUP OF CANNABIS; AND PROVIDING OTHER MATTERS PROPERLY RELATING THERETO.

Will Adler, Principal, Silver State Government Relations

on behalf of Sierra Wellness and Rise

Amend Section 1 of the proposed ordinance to restrict those cannabis retail sales known as ‘curbside’ in these ways:

- Curbside operations shall not extend past the store frontage in which the facility operates;
- All exterior signs related to the Curbside program must be discrete and solely for the purpose of indicating curbside pickup spots. No additional signage promoting Curbside services shall be permitted outside the dispensary facilities.
