

An architectural rendering of a school building complex. The main building is a long, two-story structure with a grey roof and brick walls. A prominent feature is a large, modern white structure with a flat roof and extensive glass windows, which appears to be a library or a modern classroom wing. This white structure is connected to the main building. In the foreground, there is a parking lot with several cars parked. The surrounding landscape is arid, with sandy ground, small green shrubs, and a few trees. A winding path or road is visible in the background. The overall scene is presented in a clean, digital style.

SON CITY SCHOOL DISTRICT
The Valley Middle School

SCHOOL EXPANSION

Architects – Van Woert-Bigotti & CMAR CORE Construction

- 10 new classrooms (five on each floor)
- 2 STEM (Science, Technology, Engineering, Mathematics) Labs
- Collaborative Common Areas

Ideas for Your Team

Top Brainstorming Ideas:

1. Defer Judgement
"Cannot Create + Destroy at Same time"
2. Start Individually (time to think)
3. Follow with Group Session (synergy)
4. Allow Ridiculous Ideas (out of box)
5. Transference from other industries
6. Let Ideas Hang
7. Have Fun!
8. Bridge the Extroverts and Introverts.
Unleash the Introverts.
9. Set Safe Environment + Establish Rules
Facilitate with process, Participate with Respect.
10. Thank You - I could see how that could work!

for Team

1. Defer Judgement
