Hello,

To the school board members, I would like to say you are all doing a great job handling an almost impossible situation. Please ignore the noise and stay focused on keeping our kids safe.

Thanks,

Adam Woodrum

On my windshield today, I found a flyer with regard to the Carson k-12 board meeting about masking, that stated the following: "It's your body - your choice. No one has the power to force you to do anything against your will..."

Well, anti-maskers and anti-vaxers are forcing the rest of us to be exposed to a potentially deadly virus, that can kill, can leave the victim with lifelong disabilities, and can harm even the healthiest adults, AGAINST OUR WILL! We have rights, too!

The flyer goes on to say that testing is dangerous. They fail to indicate exactly HOW it is dangerous. In fact, it is a standard procedure for diagnosing, not only Covid, and the flu, but Strep throat. I've had one for flu in 2019, and on several occasions. a step test, and I HAVE SURVIVED TO TELL THE TALE!

MY RIGHTS as a cancer survivor and a US citizen are being assaulted by out of control adults acting like children in refusing to get a simple vaccine, that 50% of the population has had with NO complications. I had two Moderna shots, a month apart, and I have not sprouted wings,

turned green, become an alien creature, and no men in black suits and sunglasses are following me around. Also, I haven't died, NOT EVEN ONCE!

I advocate FOR the vaccine, FOR masking when in public, PARTICULARLY around unvaccinated individuals.

School? HECK YES, WEAR MASKS AND GET THE VACCINE WHEN AVAILABLE!

If not, then provide space suits for all the kids so they can play and learn together and NOT be infected by adults who send their kids to school KNOWING they're infected!

My question to the anti-vaxers and anti-maskers is this, WHY ARE YOU AFRAID TO WEAR A MASK AND GET A VACCINE THAT HAS BEEN TESTED ON HALF THE US POPULATION?

Carl C

I am appalled over this campaign over the COVID-19 vaccine. You have not convinced me of your opinion that this vaccine is dangerous. This vaccine like any other vaccine is there to protect as was in the day when the polio vaccine measles vaccine were new and people were afraid to get it. Also let's be frank you state it's your body no one can force you to get the vaccine but we deny abortions to rape victims and women who have health issues yet again it's their body. Your reasoning is not cohesive you cannot have it both ways
Stop trying to sway the public. Leave the decision to the individual either get the shot or get tested

Stop leaving flyers on vehicles

Unfortunately I can't be there tonight for the joint meeting but I stand in support! I am being forced to take a covid test each week as a state employee or be terminated. This test is against my will to do so.

Justin
