This email is from "We The People Of Nevada".

This Is Related To The Public Letter Regarding Covid 19 and the Governor's unlawful mandates of which originally signed, multiple copies were mailed to each of you (copy of public letter enclosed).

This Public Letter declares the Governor's unlawful mandates, lockdowns, etc. which commenced as far back as March 2020 with No State Of Emergency in existence. We have recently received additional information (attached below) regarding the Covid 19 "Non-Pandemic"; the truth being explicitly defined by world renown doctors who have studied this virus for many, many years.

This shared information is even more conclusive that our state must be immediately reopened, stopping the further decay of our economy and the massive, unjustifiable intrusion on our private lives, even more threatening, the intrusion on our personal health and well-being - the mask mandate the worst of all intrusions. This government on every level has overstepped their boundaries in their complicit behavior and decisions to follow a Governor who has clearly committed a criminal violation of Title 18 of the US Constitution, Codes 1038 and 1040. This does not take a legal action on your part to remedy, but simply a refusal to violate the law, to which the Public Letter attests. We need you to act immediately to open up Carson City/County and instruct all businesses within our county to remove every unlawful mandate message and all other restrictions that have been posted to their business sites. You now know the facts and the truth. Stop allowing this continual unlawful assault on the people of this county and state!

We The People Of Nevada

Letter - There Is No
Emergency, 2 pgs.pdf

September 2, 2020

To All Nevada State, County and Local Representatives,

The purpose of this letter is to advise you of the following steps and direction that We The People of Nevada are taking regarding the Non-Pandemic Covid-19.

First, there are two major points of concern that exist statewide that are dangerously impacting every citizen regarding this 'influenza'.

**THE GOVERNOR CANNOT MANDATE ANYTHING AND
THERE IS NO STATE OF EMERGENCY!**

Each person has the God-given right to make any and all decisions, most significantly, related to their personal health and well-being and the Governor does not have the authority to mandate anything. More critically, when it may be endangering the health of the people. US Title II, Civil Rights Act, US Code 42, SS 2000(a)

*The most significant factor is that it is now **public information that over 90% of the actual Covid cases diagnosed have now been proven to be 'clinically insignificant'** because they are not likely to be contagious. This is not an opinion but a fact taken from the actual PCR test findings in the states of New York, Massachusetts and Nevada as very recently reported by the New York Times. Also the Center for Disease Control (CDC) recently updated the actual Covid deaths to 9,210 nationwide, far below the annual seasonal influenza death rate. At the earlier point in time that any proposed state of emergency was announced, it should have been terminated at the earliest possible date that conditions warranted.*

Thousands of Nevada healthcare workers have been furloughed since April. No legal grounds exist to support a state of emergency based on public health as there is no "threat that overwhelms the current resources of the state" based on the actual covid-related deaths.

The above information also substantiates that Covid-19 cannot lawfully be classified as an "epidemic". An epidemic is when there are disproportionately large numbers experiencing an outbreak of a disease. There is no evidence of this in Nevada as current numbers testify. Subsequently, there are no legal grounds for an additional extension or a new state of emergency to be declared, with the Governor unlawfully mandating extended shutdowns of businesses in this state.

Nevada Revised Statute also addresses the civil process and subsequent violation regarding the following. NRS 41.508. Related NRS 414.0345, 232.3532.

Liability Of Persons Who Make Or Cause To Be Made False Reports Of Crimes Or Emergencies

*Based on the Governor's unlawful mandates, and we as Nevadans understanding the gravity and debilitating toll that these actions have taken on the lives of all Nevadans for many months, are now coming together to reclaim **all of our God-given rights** that were being stripped from us.*

*You as representatives for us, the citizens of this state, now have the responsibility and obligation to immediately take action to remedy this severe damage done. Every business statewide must be immediately made aware by their county, city and state representatives of these unlawful actions taken against them based on the Governor's mandates and all mandate related messages removed from all Nevada business sites. They need to be assured that they will not again be intimidated, threatened, penalized, fined or jailed for practicing their **God-given rights** by lawfully running their businesses, feeding their families, and putting in their life's work just to pay their bills. We Nevadans will no longer be mandated to wear face coverings of any type, practice social distancing, be subjected to temperature taking, viral testing or vaccination, unless we each personally choose to do so.*

*For many Nevadans it is already too late. They have lost everything, some of them their lives, and they did not die of Covid. Our lives from this day forward are going to return to the 'real normal'; what should be. But rest assured, we the people of Nevada will be certain that anyone serving us in their political capacity understands they work for us and they will be held accountable for any and all actions that become a threat or detriment to us and our way of life. A final point. Now that the truth of this Non-Pandemic virus has surfaced, we the Nevada voters demand our **God-given right** to have the choice to vote in person at the polls in the 2020 election in November. May God Bless Us All. We The People of Nevada.*

Signature _____ County Name _____

WE THE PEOPLE OF NEVADA DECLARE THIS!

IMMEDIATELY OPEN UP OUR COUNTIES!

NO MORE LOCKDOWNS OR ANY RESTRICTIONS ON OUR LIVES!

December 22, 2020

To All Nevada County Commissioners -

Prior to the November 3rd, 2020 election most of you representatives received numerous original signed letters with a date of September 2, 2020 from 'We The People Of Nevada', **detailing on page 2** the steps you were instructed to take to override the unconstitutional actions of Governor Sisolak through his unlawful mandates and directives with no actual, **real proof** provided regarding the China virus so-called 'pandemic'. (See US Constitution reference, page 2 of this letter.) A copy of the September 2nd letter will be included in this mailing for all new representatives who have stepped in since the 2020 election. For those serving prior to the November 2020 election, **to date** no actions have been taken on your part to remedy this devastating economic and deeply personal disaster hitting every single Nevada family.

From the entry of the China Virus, Covid-19, into the United States to the current time, President Trump has accomplished removing all threat of this disease by bringing therapeutics including hydroxychloroquine and most recently the vaccine to the American people now being distributed to every state. With age-specific survival rates: 0-19 years old, 99.997 percent; 20-49 years old, 99.98 percent; 50-69 years, 99.5 percent; and 70 years old or older, 94.6 percent as reported by the CDC, Center for Disease and Control, it is abundantly clear and confirms that a pandemic does not exist in any way, shape or form.

The Governor by his unlawful mandates and actions has **HIMSELF** placed the entire State of Nevada in a **Real State of Emergency** by continuing to completely destroy even more businesses with extended lockdowns, fines, fees, penalties, threats, etc. And for the sole purpose of controlling and manipulating every single Nevadan. His perpetuation of terror of a **completely treatable** disease, has created a statewide deadly environment with people being held hostage in their own homes, for fear of stepping outside, many

separated permanently from their loved ones as they die never being able to say 'goodbye'.

We The People Of Nevada will not stand for this any longer! You need to **immediately** submit the paperwork declaring our county in a severe **Real State of Emergency** that will no longer be restricted or controlled in any way by this **tyrannical, socialistic Governor's restrictions!**

The foundation has already been laid out for you by White Pine County. They have filed their White Pine County Resolution. God bless those Commissioners. The link has been provided below.

<https://360newsลาสвеegas.com/wp-content/uploads/2020/12/White-Pine-CV19-Resolution.pdf>.

We The People Of Nevada demand that you do your jobs and fix this issue now!

Signature _____ *County Name* _____

United States Constitution

Title 18 U.S. Code § 1038. False information and hoaxes **(a) Criminal Violation.**

Title 18 U.S. Code § 1040. Fraud in connection with major disaster or emergency benefits

Last week there was a comment that some of the people here don't even have kids in the district. My daughter would still be in the district had this nonsense not happened. We're here for the children, parents and teachers that can't be here or don't want to come for fear of retaliation. I don't envy the job you have to do. That being said I hope you make your decisions based on parents and employees choice. Let them choose what they want to do with their body.

I noticed that this time last year it was almost impossible to get a Covid test now this year we are testing more people regardless if they have symptoms or not. At the same time masks were removed and classes are back to full capacity. On Facebook there were several comments blaming the rise in cases on masks being optional. However now that you have brought the masks back it would make sense to continue to test at the same rate because odds are you will find the masks don't do anything to slow the spread. The same goes for the tests if you only test unvaccinated people you will only have cases from the unvaccinated. Not a complete picture of what is really going on. There is a video of Fauci saying to test below 35 cycle threshold counts because anything above will more than likely give false positives. The CDC epidemiologist that was here said they are testing at 40 cycles.

It's like the data they have on people with antibodies there is a lot of talk about studying the people that have antibodies further if we all are forced to take this vaccine our natural antibodies will be neutralized and no-one can be studied then. The antibody tests are not reliable according to doctors and they will not just prescribe one for someone so they don't have to take the vaccine. That is very alarming considering the vaccine has terrible side effects on some people. Now in my personal experience I had covid I was high risk with Asthma, on immunosuppressant's with an autoimmune condition I only had flu symptoms for 3 days and couldn't taste . 6 months later I was exposed taking care of my family for over 10 day's I had no symptoms during this time. There is no way I want to get rid of these antibodies.

I would like to finish with this. I looked at bed capacity in the surrounding hospitals. It doesn't look good. However if you think about it we started to spike after more people got the vaccine. My husband and daughter got covid after being around freshly vaccinated teachers and co-workers. I think it's more than just a coincidence. I have a friend that had covid so bad she was in the hospital for 12 days then when she was able she got the Pfizer vaccine now she has blood clots in her lungs. Two local pharmacy employees got the vax and they can't walk now. Odds are they will say oh not the vaccine that did it. There are just too many cases of blood clots, myocarditis, Gillian Barres, paralysis, bells palsy following this vaccine and we have no idea what long term autoimmune conditions it may cause.

Please before you take away everyone's freedom of choice and body autonomy consider doing something different because what has been done up to this point isn't reducing cases.

To whom it concerns,

I am asking you for a public records request of all the **LEGAL** evidence you have provided me to justify your policy or mandate to make me or my child wear a mask/take a Covid test/get a Covid vaccination.

I'm assuming you have a weight of evidence showing peer reviewed clinical trials published in respected medical journals to legally justify your policy or mandate.

Because if you don't, you are in violation of **Section 242 of the U.S. Code § Title 18 Deprivation of rights under color of law**, which states...

Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, or to different punishments, pains, or penalties, on account of such person being an alien, or by reason of his color, or race, than are prescribed for the punishment of citizens, shall be fined under this title or imprisoned not more than one year, or both.

In addition, I assume your legal department has made you aware that while the U.S. Congress has granted vaccine manufacturers legal immunity, **you have not been granted the same protections**, and **CAN** and **WILL** be sued for any adverse health effects or death resulting from such policies or mandates.

Sincerely,
