BACKGROUND AND DISCUSSION:

At its meeting of November 17, 2020, the Planning Commission was provided with an update on the Master Plan implementation activities and reviewed and made recommendation to the Board of Supervisors on the Master Plan Action Plan and other Master Plan related matters. At its meeting of January 21, 2021, the Board of Supervisors accepted the 2020 Master Plan report from the Planning Commission.

The report included land use mapping corrections, including the subject property at the southeast corner of Empire Ranch Road and Highway 50 East. Currently, there are three master plan designations assigned to this property, including Low-Density Residential (“LDR”), Community/Regional Commercial (“C/RC”), and Mixed-Use Commercial. There are also three zoning districts assigned to this parcel, including Single-Family 21,000, General Commercial, and General Industrial.

Staff is recommending a master plan designation of Community / Regional Commercial and a zoning district of General Commercial for the entire parcel. This is a continuation of the General Commercial zoning to the west of the subject parcel.

The property was the subject of a special use permit in 2020 to allow for an RV and Boat storage facility. The special use permit was required due to the split zoning. The RV and Boat storage will be consistent with the proposed zoning of General Commercial. General Commercial zoning is also consistent with the proposed master plan designation of Community/ Regional Commercial.

The Board of Supervisors may amend the Master Plan and Zoning Maps. The Planning Commission makes a recommendation to the Board.

PUBLIC COMMENTS: A courtesy notice was mailed to the effected property owners on October 5, 2021. On November 2, 2021, public hearing notices were mailed to 61 property owners within 600 feet of the subject properties in accordance with the provisions of NRS and CCMC 18.02.045. At the time of the writing of this report staff has not received any public comment. Any comments that are received after this report is completed will be provided to the Planning Commission either

prior to or at the November 16, 2021 meeting depending on their submittal date to the Planning Division.

OTHER CITY DEPARTMENT OR OUTSIDE AGENCY COMMENTS:

The requests were routed to other departments for review and comment. All indicated they had no comments or concerns with the proposed amendments.

FINDINGS: Staff recommends the following findings for approval of the Master Plan Amendment and Zoning Map Amendment pursuant to the CCMC 18.02.070 and 18.02.075, Zoning Map Amendments and Zoning Code Amendments.

MASTER PLAN AMENDMENT FINDINGS: Per the provisions of CCMC 18.02.070

1. The proposed amendment is in substantial compliance with the goals, policies and action programs of the Master Plan.

There are currently three different master plan designations applied to the subject parcel, one of them being Community / Regional Commercial. The proposal is to apply the C/RC master plan to the entire parcel making it consistent across the entire parcel and with the parcels to the north and west of the subject parcel.

2. The proposed amendment will provide for land uses compatible with existing adjacent land uses and will not have detrimental impacts to other properties in the vicinity.

The proposed amendment will provide for land uses compatible with the RV and Boat storage use that was approved by special use permit in 2020 and will be consistent with the designations to the north and west. The proposed designation will cause the approved use to be consistent with the master plan without the need for a special use permit. Additionally, the proposed master plan and zoning designations will provide for a transition between the existing residences in the area and the General Industrial zoned parcels to the east.

3. The proposed amendment is in response to changed conditions that have occurred since the plan was adopted and the requested amendment represents a more desirable use of land.

The subject parcel was previously 4 parcels. The four parcels have since been merged into one resulting in three master plan designations being applied to a single parcel. The proposed amendment will provide for consistency across the entire parcel. Additionally, the designation will be consistent with the designations of the parcels to the west and the north and will provide a transition between the existing residences in the area and the industrial zoned parcels to the east.

4. The requested amendment will promote the desired pattern of orderly physical growth and guides development based on the projected population growth with the least amount of natural resource impairment and the efficient expenditure of funds for public services.

The proposed amendment will provide for consistency across the entire parcel. Additionally, the designation will be consistent with the designations of the parcels to the west and the north and will provide a transition between the existing residences in the area and the industrial zoned parcels to the east. The proposed designation will simply create consistency across the entire parcel as well as consistency with the parcels to the north and west of the subject site.

ZONING MAP AMENDMENT FINDINGS:

- 1. That the proposed amendment is in substantial compliance with and supports the goals and policies of the master plan.**

Chapter 3 of the Master Plan identifies the land use designations and identifies what zoning districts corresponds to the land use designation. If the Master Plan is amended to designate the property as Community/ Regional Commercial, the proposed General Commercial zoning district would be a corresponding zoning district that will implement the Master Plan.

- 2. That the proposed amendment will provide for land uses compatible with existing adjacent land uses and will not have detrimental impacts to other properties in the vicinity.**

The proposed amendment will provide for land uses compatible with the RV and Boat storage use that was approved by special use permit in 2020 and will be consistent with the designations to the north and west. The proposed zoning will cause the approved use to be consistent with the approved use of RV and Boat storage to be consistent with the zoning without the need for a special use permit. Additionally, the proposed master plan and zoning designations will provide for a transition between the existing residences in the area and the General Industrial zoned parcels to the east.

- 3. That the proposed amendment will not negatively impact existing or planned public services or facilities and will not adversely impact the public health, safety and welfare.**

The proposed zoning map amendment will not negatively impact existing or planned public services or facilities and will not adversely impact the public health, safety and welfare. The approved RV and Boat storage use is consistent with the proposed General Commercial zoning district.
