EXECUTIVE SUMMARY

This Debt Management Policy was created to fulfill the requirements of NRS 350.013. The Carson City School District (the "District") is generally limited in the bonds it can issue by its statutory debt limit, the \$3.64 limit on overlapping tax rates, and the amount of revenue available to pay debt service on bonds. This Debt Management Policy discusses the outstanding and proposed debt of the District, its ability to afford such debt, and other items relating to the issuance of bonds by the District.

As of June 30, 2022, the District has \$66,581,000 of general obligation debt outstanding. The majority of the District's general obligation debt is paid from the levy of a \$0.4300 property tax. The District currently has approximately \$209,864,710 of statutory debt limit available, assuming issuance of authorized bonds. The District has authorization from the Debt Management Commission to issue \$11,840,000 of general obligation bonds. The District does not plan to issue bonds in fiscal year 2023 before the authorization expires in August 2023 but reserves the right to do so if all legal requirements are met.

The District received voter approval in November 2010 for authorization to issue general obligation bonds over a ten-year period via a "rollover" bond question. The State Legislature extended the authorization during its 2021 session. The authorization will expire in March 2035. Issuance of bonds is conditional upon certain findings made by the District's Board of Trustees that such bonds can be paid within the existing property tax for school bond debt service.

The District reserves the right to issue additional bonds at any time legal requirements are met. The District does not currently expect to increase its debt tax rate to repay any bonds.

The District has identified the need for various capital improvement projects in its Capital Improvement Plan ("CIP"). The District's CIP is attached as Appendix B.

Affordability of Existing, Authorized, and Proposed General Obligation Debt

NRS 350.013 1.(c)(1) A discussion of its ability to afford existing general obligation debt, authorized future general obligation debt, and proposed future general obligation debt.

NRS 350.013 1.(c)(6) A discussion of its sources of money projected to be available to pay existing general obligation debt, authorized future general obligation debt, and proposed future general obligation debt.

Outstanding, Authorized, and Proposed Debt

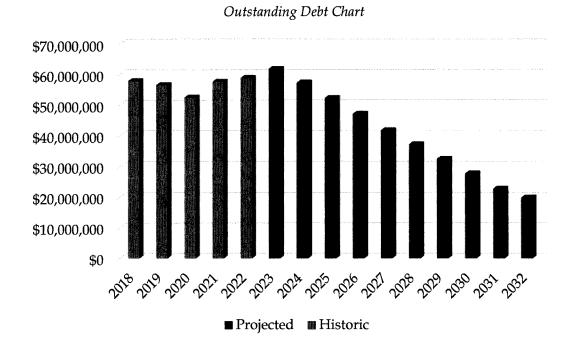

As of June 30, 2022, the District has \$66,581,000 of general obligation debt outstanding. The following table lists the District's outstanding debt.

Outstanding General Obligation Debt and Other Obligations June 30, 2022

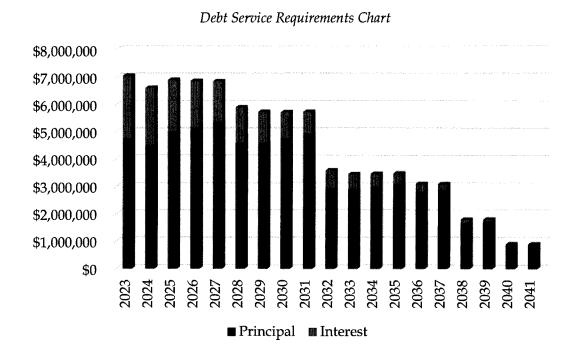

Issue	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
GENERAL OBLIGATION BONDS				
School Improvement Bonds, Series 2012	03/06/12	06/01/32	\$4,025,000	\$1,600,000
Refunding Bonds, Series 2014	11/19/14	06/01/27	8,530,000	5,405,000
Refunding Bonds, Series 2016	07/28/16	06/01/31	9,560,000	8,225,000
School Improvement Bonds, Series 2017	02/02/17	06/01/37	15,000,000	14,470,000

	TOTAL GENE	ERAL OBLIGA	ATION DEBT	\$66,581,000

SOURCE: The District and the District's 2023 Final Budget

The chart below depicts the projected outstanding balance of general obligation debt.

The chart below depicts the combined debt service requirements to maturity of the District's outstanding debt.

Appendix A contains individual debt service schedules for each of the outstanding bond issues.

The following sections demonstrates the ability of the District to make principal and interest payments on the outstanding and proposed bonds.

General Obligation Property Tax Paid Bonds

The District currently has \$66,581,000 of outstanding general obligation debt paid by the levy of a specific property tax. The following table details the remaining payments on the bonds.

Property Tax Secured Bonds Outstanding Debt Service June 30, 2022

SOURCE: The District; compiled by JNA Consulting Group, LLC

The District is currently levying a tax rate of \$0.4300 to repay the outstanding bonds. The revenues generated by the tax rate, the balance in the Debt Service Fund, and interest earnings are anticipated to be sufficient to pay the outstanding bonds. The following table details the cashflows in the District's Debt Service Fund.

Debt Service Fund

	Fiscal Year 2021 (Audited)	Fiscal Year 2022 (Estimated)	Fiscal Year 2023 (Budgeted)

SOURCE: The District's 2023 Budget

NRS 350.020(5) requires that the Board establish a reserve account within its debt service fund for payment of the outstanding bonds of the District and, if then permitted by the statutes of the State, amounts in the reserve account may be withdrawn and used for purposes other than payment of debt service on outstanding District bonds. Under present law, the amounts on deposit in the reserve account are not directly pledged to pay debt service on the Bonds. In order to issue additional bonds or transfer funds for capital projects, the reserve account must be established and maintained in an amount at least equal to the lesser of 50 percent of the amount of principal and interest payments, net of any subsidies, due on all of the outstanding bonds of the District in the next fiscal year or 10 percent of the principal amount of the outstanding bonds of the District. The budgeted ending fund balance on June 30, 2022, of \$6,321,542, is equal to approximately 90% percent of the debt service in fiscal year 2023.

Authorized General Obligation Bonds

The District has authorization for an additional \$11,840,000 of general obligation bonds. This authorization expires in August 2023. The District does not expect to issue bonds in fiscal year 2023 before authorization expires, but reserves the right to do so if all legal requirements are met.

Authorized General Obligation Bonds

Issue	Issue Date	Authorized Amount
General Obligation Bonds	N/A	\$11,840,000

General Obligation Debt Limit

NRS 350.013 1.(c)(2) A discussion of its capacity to incur authorized and proposed future general obligation debt without exceeding the applicable debt limit.

The District is limited by state statutes as to the amount of general obligation debt it can have outstanding. The limit is equal to 15 percent of the District's total assessed valuation. As of June 30, 2022, the District has \$66,581,000 of general obligation debt outstanding. Based on the fiscal year 2022 assessed value (including the Redevelopment Agency), the District's available general obligation debt limit is approximately \$209,864,710.

General Obligation Debt Limit Based on Fiscal Year 2022 Assessed Value

Assessed Value	\$1,814,811,670
Redevelopment Agency Assessed Value	107,093,061
Total Assessed Value	1,921,904,731
General Obligation Debt Limit (15%)	\$288,285,710
Outstanding General Obligation Debt	(66,581,000)
Authorized General Obligation Debt	(11,840,000)
Available General Obligation Debt Limit	\$209,864,710

SOURCE: Nevada Department of Taxation, Fiscal Year 2021-2022 Property Tax Rates for Nevada Local Governments, and the District; compiled by JNA Consulting Group, LLC

Other factors also limit the amount of debt the District can issue. These factors include, but are not limited to, overlapping tax rates, available revenues, market conditions, and type of project to be funded.

General Obligation Debt Comparisons

NRS 350.013 1.(c)(3) A discussion of its general obligation debt that is payable from property taxes per capita as compared with such debt of other municipalities in this state.

NRS 350.013 1.(c)(4) A discussion of its general obligation debt that is payable from property taxes as a percentage of assessed valuation of all taxable property within the boundaries of the municipality.

The following table shows a comparison of the District's outstanding debt with the other school districts in Nevada.

General Obligation Debt Comparison June 30, 2022

District	General Obligation Debt	Population ¹	FY 2022 Assessed Value ²	GO Debt Per Capita	GO Debt as a % of Assessed Value

Method of Sale

NRS 350.013 1.(c)(5) Policy regarding the manner in which the municipality expects to sell its debt.

Bonds can generally be sold at a competitive sale, negotiated sale or be privately placed.

<u>Competitive Sale</u> – Offering documents are sent to any firm interested in purchasing the bonds. A day and time are chosen for the sale and bonds are awarded to the firm offering the lowest true interest cost on the bonds (the "TIC"). The TIC is the discount rate which results in a present value of the future debt service payments equal to amount bid for the bonds.

<u>Negotiated Sale</u> – One firm, or group of firms, is chosen in advance to offer the bonds for sale. At the time of sale, interest rates and other terms of the bonds are negotiated with the Underwriter.

<u>Private Placement</u> – A purchaser, usually an individual or bank, is identified and the bonds are placed directly. Interest rates and other terms of the bonds are negotiated with the purchaser.

NRS 350 generally requires bonds issued by the District to be sold at competitive sale. For most District general obligation bonds, a competitive sale will usually result in the lowest TIC on the bonds. There are certain circumstances under which the District would consider a negotiated sale or private placements. Such circumstances include, but are not limited to:

- 1) Bonds issued with a variable rate of interest
- 2) Bonds rated below A- or not rated
- 3) Very small or very large bond issues
- 4) Unstable or highly volatile markets
- 5) Bonds with unusual security or structure

The District will follow the requirements of NRS 350.155 in choosing a method of sale for its bonds. If the District determines that a negotiated sale is warranted for a general obligation bond or a bond secured by an excise tax, it will distribute a request for proposal to underwriting firms. The selection of an underwriter(s) will be based on a determination of the firm that demonstrates its ability to obtain the overall best interest rate for the District. Consideration in making this determination will be given to the firm's experience with similar financings, proposed compensation structure, and marketing plan.

Operational Costs of Future Capital Projects

NRS 350.013 1.(c)(7) A discussion of its operational costs and revenue sources, for the ensuing 5 fiscal years, associated with each project included in its plan for capital improvement submitted pursuant to paragraph (d) if those costs and revenues are expected to affect the property tax rate.

The District has prepared a Capital Improvement Plan, which is attached as Appendix B. The operational costs for the District are paid from the General Fund which is funded from the State Education Fund ("SEF") which was recently created under the new State of Nevada Pupil-Centered Funding Plan. The property tax rate levied for the support of school districts is set by statute at \$0.75 and goes entirely to the SEF and is then redistributed as a state source. Under the Pupil-Centered Funding Plan there is no ability for the District to levy a property tax or sales tax to increase operational funding of the District. Therefore, any operating costs for any new projects will be paid from existing resources.

Capital Improvement Plan

NRS 350.013 1.(d) Either:

- (1) Its plan for capital improvement for the ensuing 5 fiscal years, which must include any contemplated issuance of general obligation debt during this period and the sources of money projected to be available to pay the debt: or
- (2) A statement indicating that no changes are contemplated in its plan for capital improvement for the ensuing 5 fiscal years.

The District's Five-Year Capital Improvement Plan ("CIP") is in Appendix B - Five-Year Capital Improvement Plan of this document. The District currently utilizes three funding sources for capital projects - investment income, governmental services tax revenues, and general obligation bonds. Motor vehicle privilege taxes are deposited in the Capital Projects Fund. This fund is generally used for major repairs, remodeling, and additions to school facilities. Larger capital projects have traditionally been funded with voter approved general obligation bonds.

Bond Ratings

Rating agencies provide an independent assessment of the relative creditworthiness of municipal securities. The rating system consists of letter grades that convey each agency's assessment of the ability and willingness of a borrower to repay its debt in full and on time. Many investors rely upon these letter grades as a means of assessing the likelihood of repayment.

Credit ratings issued by the bond rating agencies are a major factor in determining the cost of borrowed funds in the municipal bond market. Determination of a credit rating by a rating agency is based on the rating agency's assessment of the credit worthiness of an issuer with respect to a specific obligation. In addition to analyzing the administrative and fiscal management of the District, the rating analysts analyze the debt burden and economic base. Rating analysts review many factors to determine bond ratings.

Description of Bond Ratings

	Standard &		
Moody's	Poor's	Fitch	Description
	High Grade		
Aaa	AAA	AAA	The highest rating assigned to a debt instrument, indicating an extremely strong capacity to pay principal and interest. Bonds in this category are often referred to as "gilt-edge" securities.
Aa1	AA+	AA+	High-quality bonds by all standards with strong capacity to pay
Aa2	AA	AA	principal and interest and are judged to be of high quality by all
Aa3	AA-	AA-	standards. These bonds are rated lower primarily because the margins of protection are less strong than those for Aaa and AAA.
Mediu	ım Investment (Grade	
A1	A+	A+	These bonds possess many favorable investment attributes, but
A2 A3	A A-	A A-	elements that suggest a susceptibility to impairment given adverse economic changes may be present.
Baa1	BBB+	BBB+	Bonds are regarded as having adequate capacity to pay
Baa2	BBB	BBB	principal and interest, but certain protective elements may be
Baa3	BBB-	BBB-	lacking in the event of adverse economic conditions that could lead to a weakened capacity for payment.
	Speculative		
Ba1	BB+	BB+	Bonds regarded as having only moderate protection of principal
Ba2	BB	BB	and interest payments during both good and bad times.
Ba3	BB-	BB-	.,
B1	B+	B+	Bonds that generally lack characteristics of other desirable
B2	В	В	investments and have greater vulnerability to default.
В3	В-	В-	Assurance of interest and principal payments over any long period of time may be small.
