As a resident of Carson City I am not happy that we (the board) have approved any marijuana dispensaries in our city. I certainly do not want any more. Under no circumstances am I in agreement of changing the ordinance to allow more. Please vote no on this change.

Thank you,

My family does not support increasing the number of dispensaries in Carson City. There are areas of Carson City that need drug intervention, which we as a city need to spend more effort on.

We have plenty Marijuana medicinal dispensaries in Carson City. We don't need any additional ones.

It was dope before, what's changed?

According to the sheriff, drug trafficking has not diminished and homeless has increased. The capital of the state should be a model community that attracts businesses and families.

Sacramento should not be the model we follow.

Good morning, my name is Ellen Jackson and I run Spirit of Hope here in Carson City. I am definitely against more dispensaries in our fine city. I have already had to fire an employee for getting high during the day off of a vape. He could not do his job because he was drugged up. To add insult to injury we are a drug and alcohol free business which includes all of my employees. Legalizing this has been tough enough, having to deal with it as an employer as well as running homes where residents now think they can use marijuana because it is legal, has been harder yet!

Let's not forget how easy it is now for our children to get this drug!

I, 100% vote AGAINST opening more dispensaries in our city.

Thank you,

Ellen Jackson
